Feature Guide

Access Restriction

Limit who can see content

Video Training

Restrict Pages and Sections

Require CAS login for access to parts of your website.

Feature Guide

Payments

Brightspot does not have a shopping cart or payment processing system, and linking directly to a checkout process from Brightspot is not allowed.

You can, however, link to a Transact shopping cart, charge a student account, or use Mendix

FEATURE GUIDES

Access Restriction

October 15, 2020 04:23 PM

Limit who can see content

On any site, section, or page you have the ability to require CAS sign-in and specify who can view the content. You can easily restrict pages to broad groups like students or employees, but you can also get more granular and use GRO groups or even specific Net IDs.

If you need to know how to add or remove access to *edit* pages, see the User Management article.

RESTRICT PAGES AND SECTIONS

Require CAS login for access to parts of your website.

Description

Guide: Page

Main

Focus Keyword Density (SEO)

Measures how often your chosen keyword appears in the text of the page. Higher density usually helps your page appear higher in search results that contain that keyword or phrase.

Display Name

This is the title that will appear at the top of your page. To create a page with no title at the top, toggle the *Hide Display Name* switch.

For more information on page titles, see <https://sites.byu.edu/docs>

Internal Name

A name that will appear only for editors of the site. This will allow

Brightspot User Conference

Cool upcoming stuff

Cool upcoming stuff

Not available yet

Cool upcoming stuff

Not available yet, but worth looking forward to

3-Year Strategy

Brightspot User Conference

Platform strategy northstars (3-year)

Meet people where they are

- Most Extensible Toolset
- Enable content creation outside of Brightspot
- Adaptability to workflows

Lifelong fans

- Enhance user-friendliness
- Expand adoption
- Enhance development

Mission-critical control tower

- Primary source for content management
- Predictive Insights & Intelligence
- Automation and optimization

Steward of content

- Partnership mentality
- Creative sandbox
- Rich tooling to run your digital business

Built for today and tomorrow

- Cross-industry expertise
- Core use case productization
- Purpose-built solutions

Platform Upgrades

Brightspot User Conference

Making upgrades easier in V4.5 and beyond

Easy & fast upgrades

What we'll do:

Software Upgrade

Brightspot Configuration Update

Integration & Validation

Q&A / Prep Launch

Training

What you'll do:

Training

Final UAT

Launch Approval

Brightspot Updates and Upgrades

BYU Instance

- Currently on version 4.5
- Brightspot planning to upgrade us to 4.7 this year
- Seems like Fall 2024 enhancements are in version 4.8
 - Not released yet
 - Schedule for our upgrade not determined

Brightspot Updates and Upgrades

Version 4.7 Highlights

- Import Google Docs as articles, blog posts and documents
- Import Google Sheets as sections or tags
- OpenAI/ChatGPT potential integration
- Create content reports
- Organize content with collections
- Quick View from Search
- Google Analytics 4 Improvements

Upgrades

Brightspot platform update

Stay ahead of the curve with the latest features, security updates, and bug fixes. We'll manage your software updates to keep your system robust and secure.

We will take care of it

We let you focus on your business and delivering the best customer experience. You will have a dedicated team (including your current delivery and customer success team) to ensure a seamless process. Brightspot will be responsible for accomplishing the following in Customer's lower environment:

- Software upgrade
- Brightspot configuration update
- Integration/validation
- QA & prep for launch

Customer responsibility

You are only responsible for any custom reporting solutions, final UAT, and Launch approval

Platform Roadmap

Brightspot User Conference

Brightspot 2024 Roadmap delivers on four key areas

Flexibility and freedom in your technology

Additional integrations amplifies the value of your existing infrastructure

- Extensibility
- eCommerce
- Collaboration & communication
- Video

Empower your work exactly your way

Enhanced collaboration and user experience gets you to your best work, faster.

- New user interface & experience
- Collaboration tools
- Content management & reporting

Your life made more productive with AI

Multiple AI-enhanced functions gives you a boost in productivity.

- Asset interaction
- Image generation
- Ask AI
- Integrations & enhancements

Building Brightspot together

Our users most requested functionality brought to life.

- Accessibility
- Graph QL API V2
- Development Resources

Flexibility & freedom in your technology

BRIGHTSPOT ROADMAP

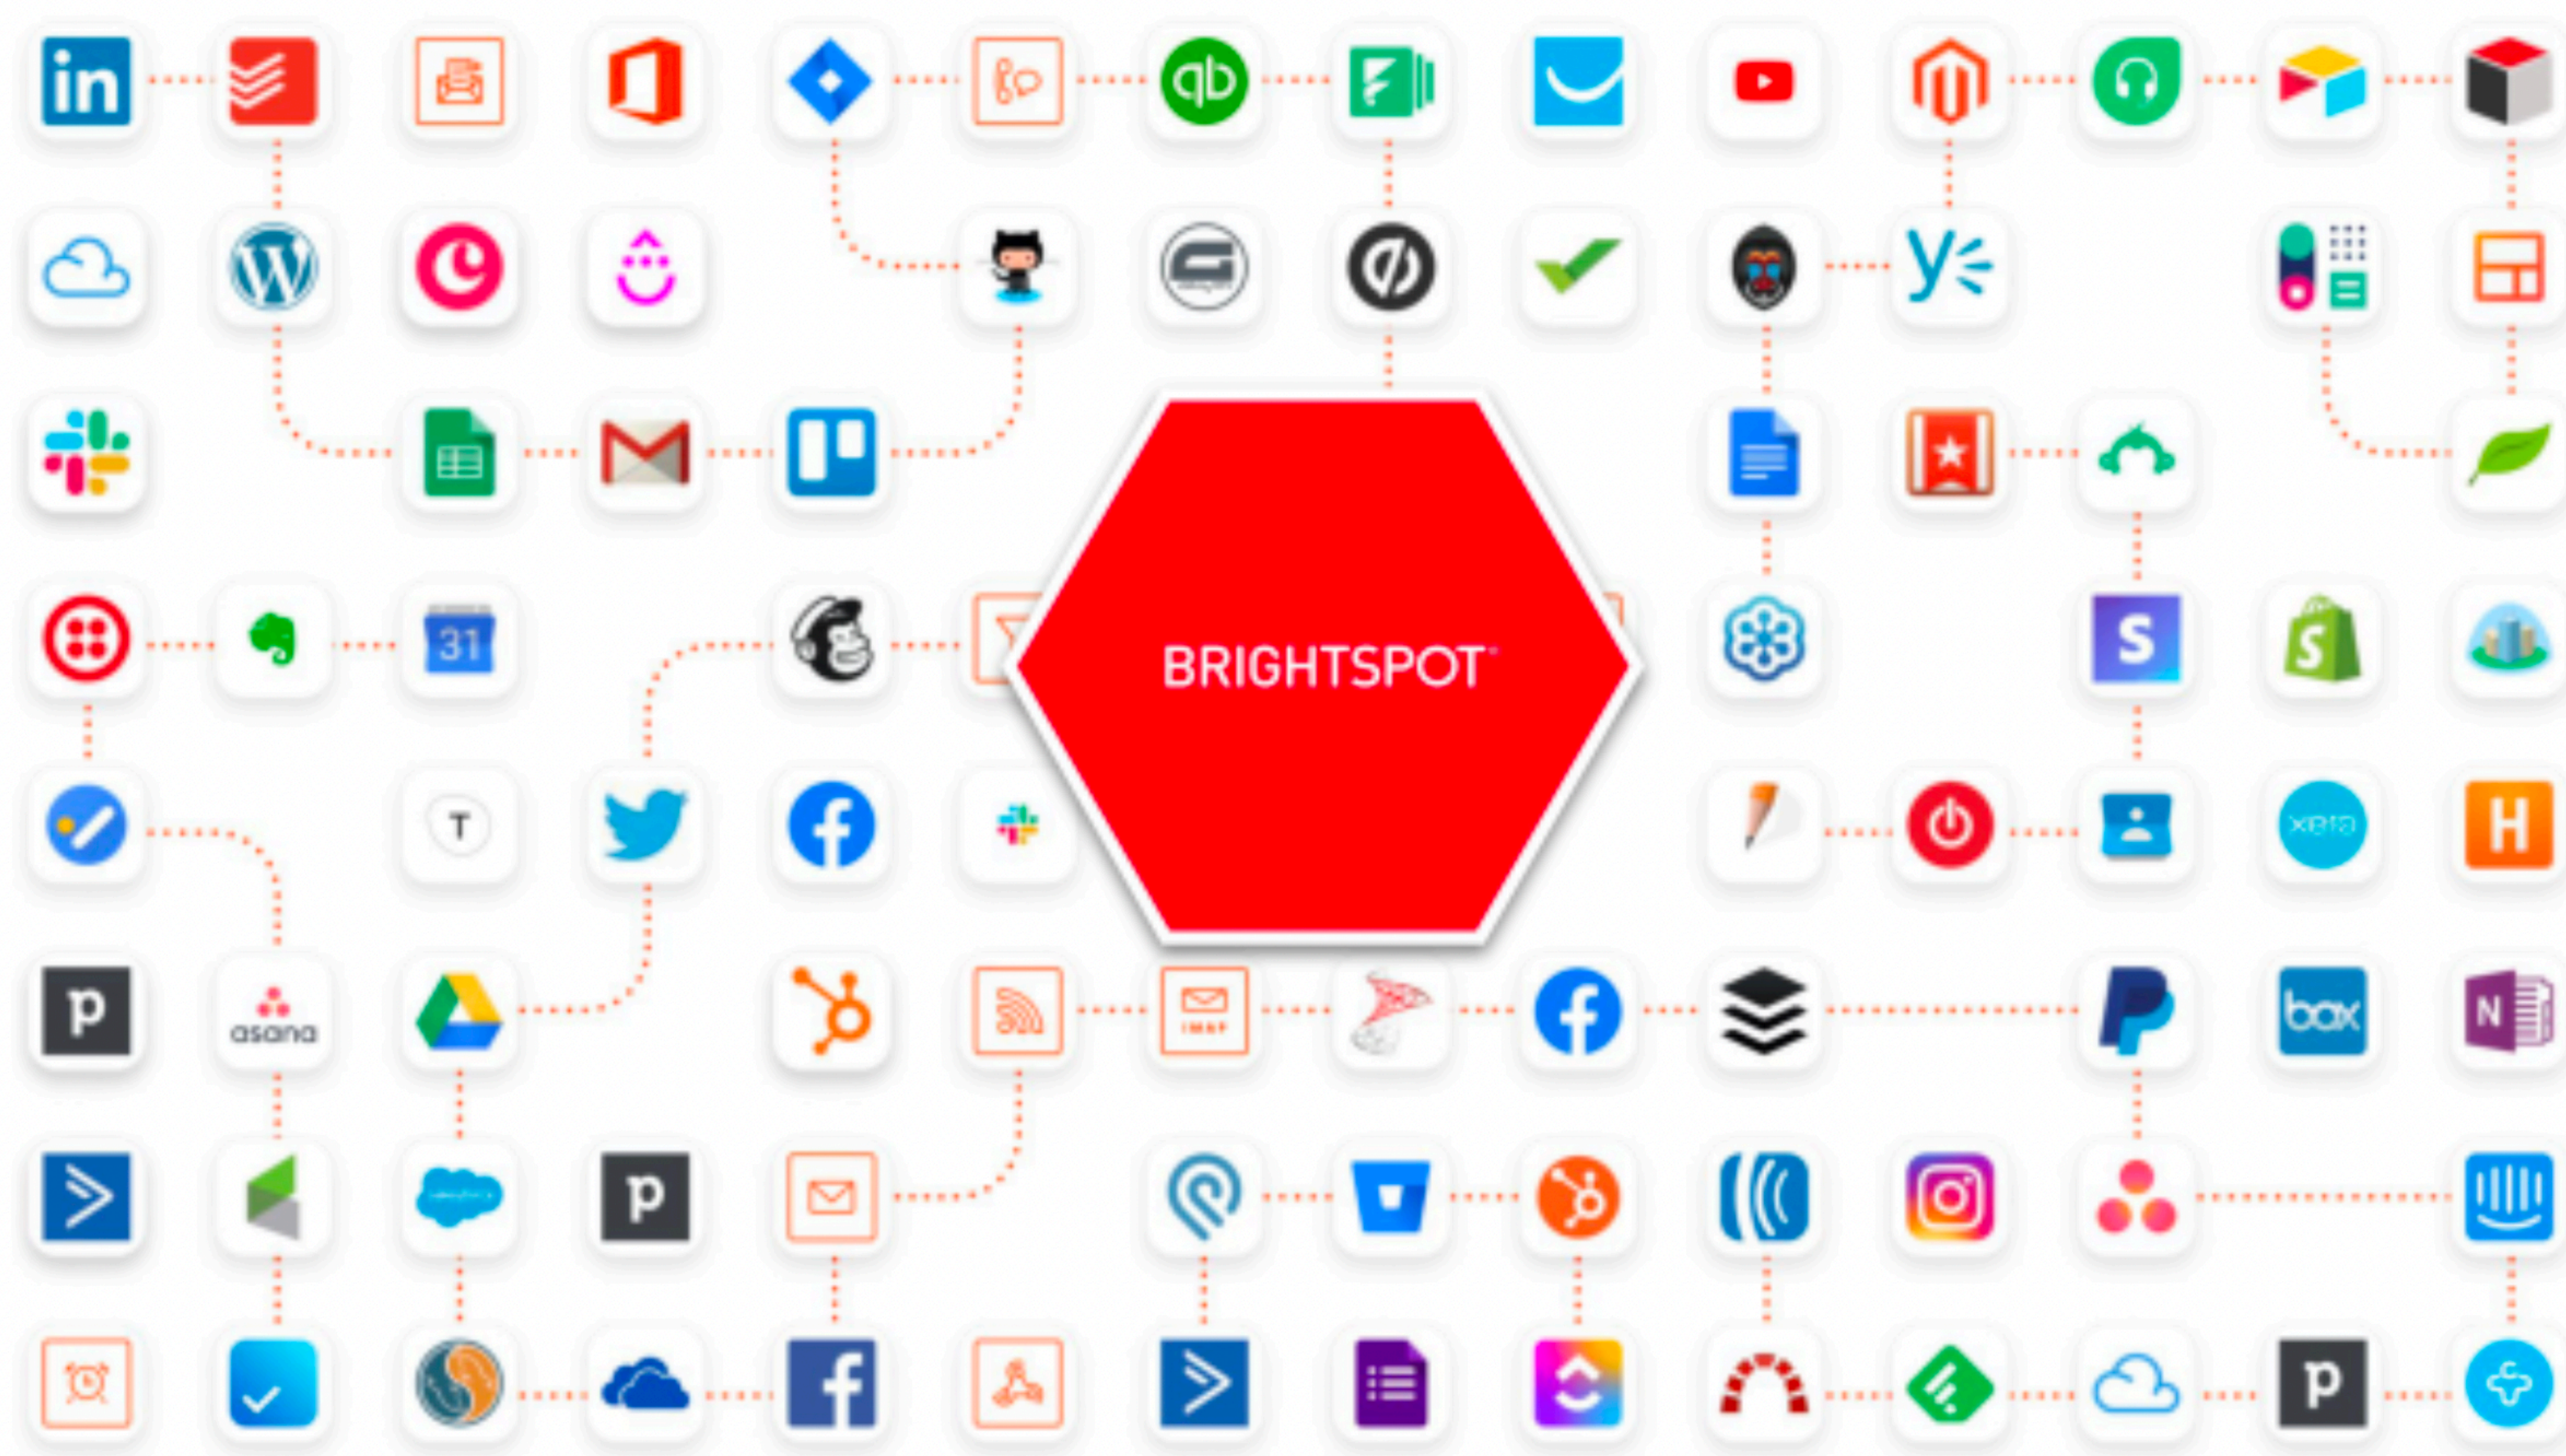

Fall 2024

Spring 2025

Extensibility

- ▲ - Extend the capabilities of the Brightspot platform, at a lower cost
- ▲ - Increase speed-to-market with ready-to-go integrations
- ▲ - Composable approach to integrations without the need for developers

Meet Zapier: Your new home to automate anything

You dream up what to automate—Zapier will handle the rest. Combine user interfaces, data tables, and logic with 7,000+ apps to build and automate anything you can imagine.

Zapier will help you grow twice as fast, even without hiring another person.

Collect lead in Interfaces form

Add to lead tracker in Tables

Blue Thistle Homes

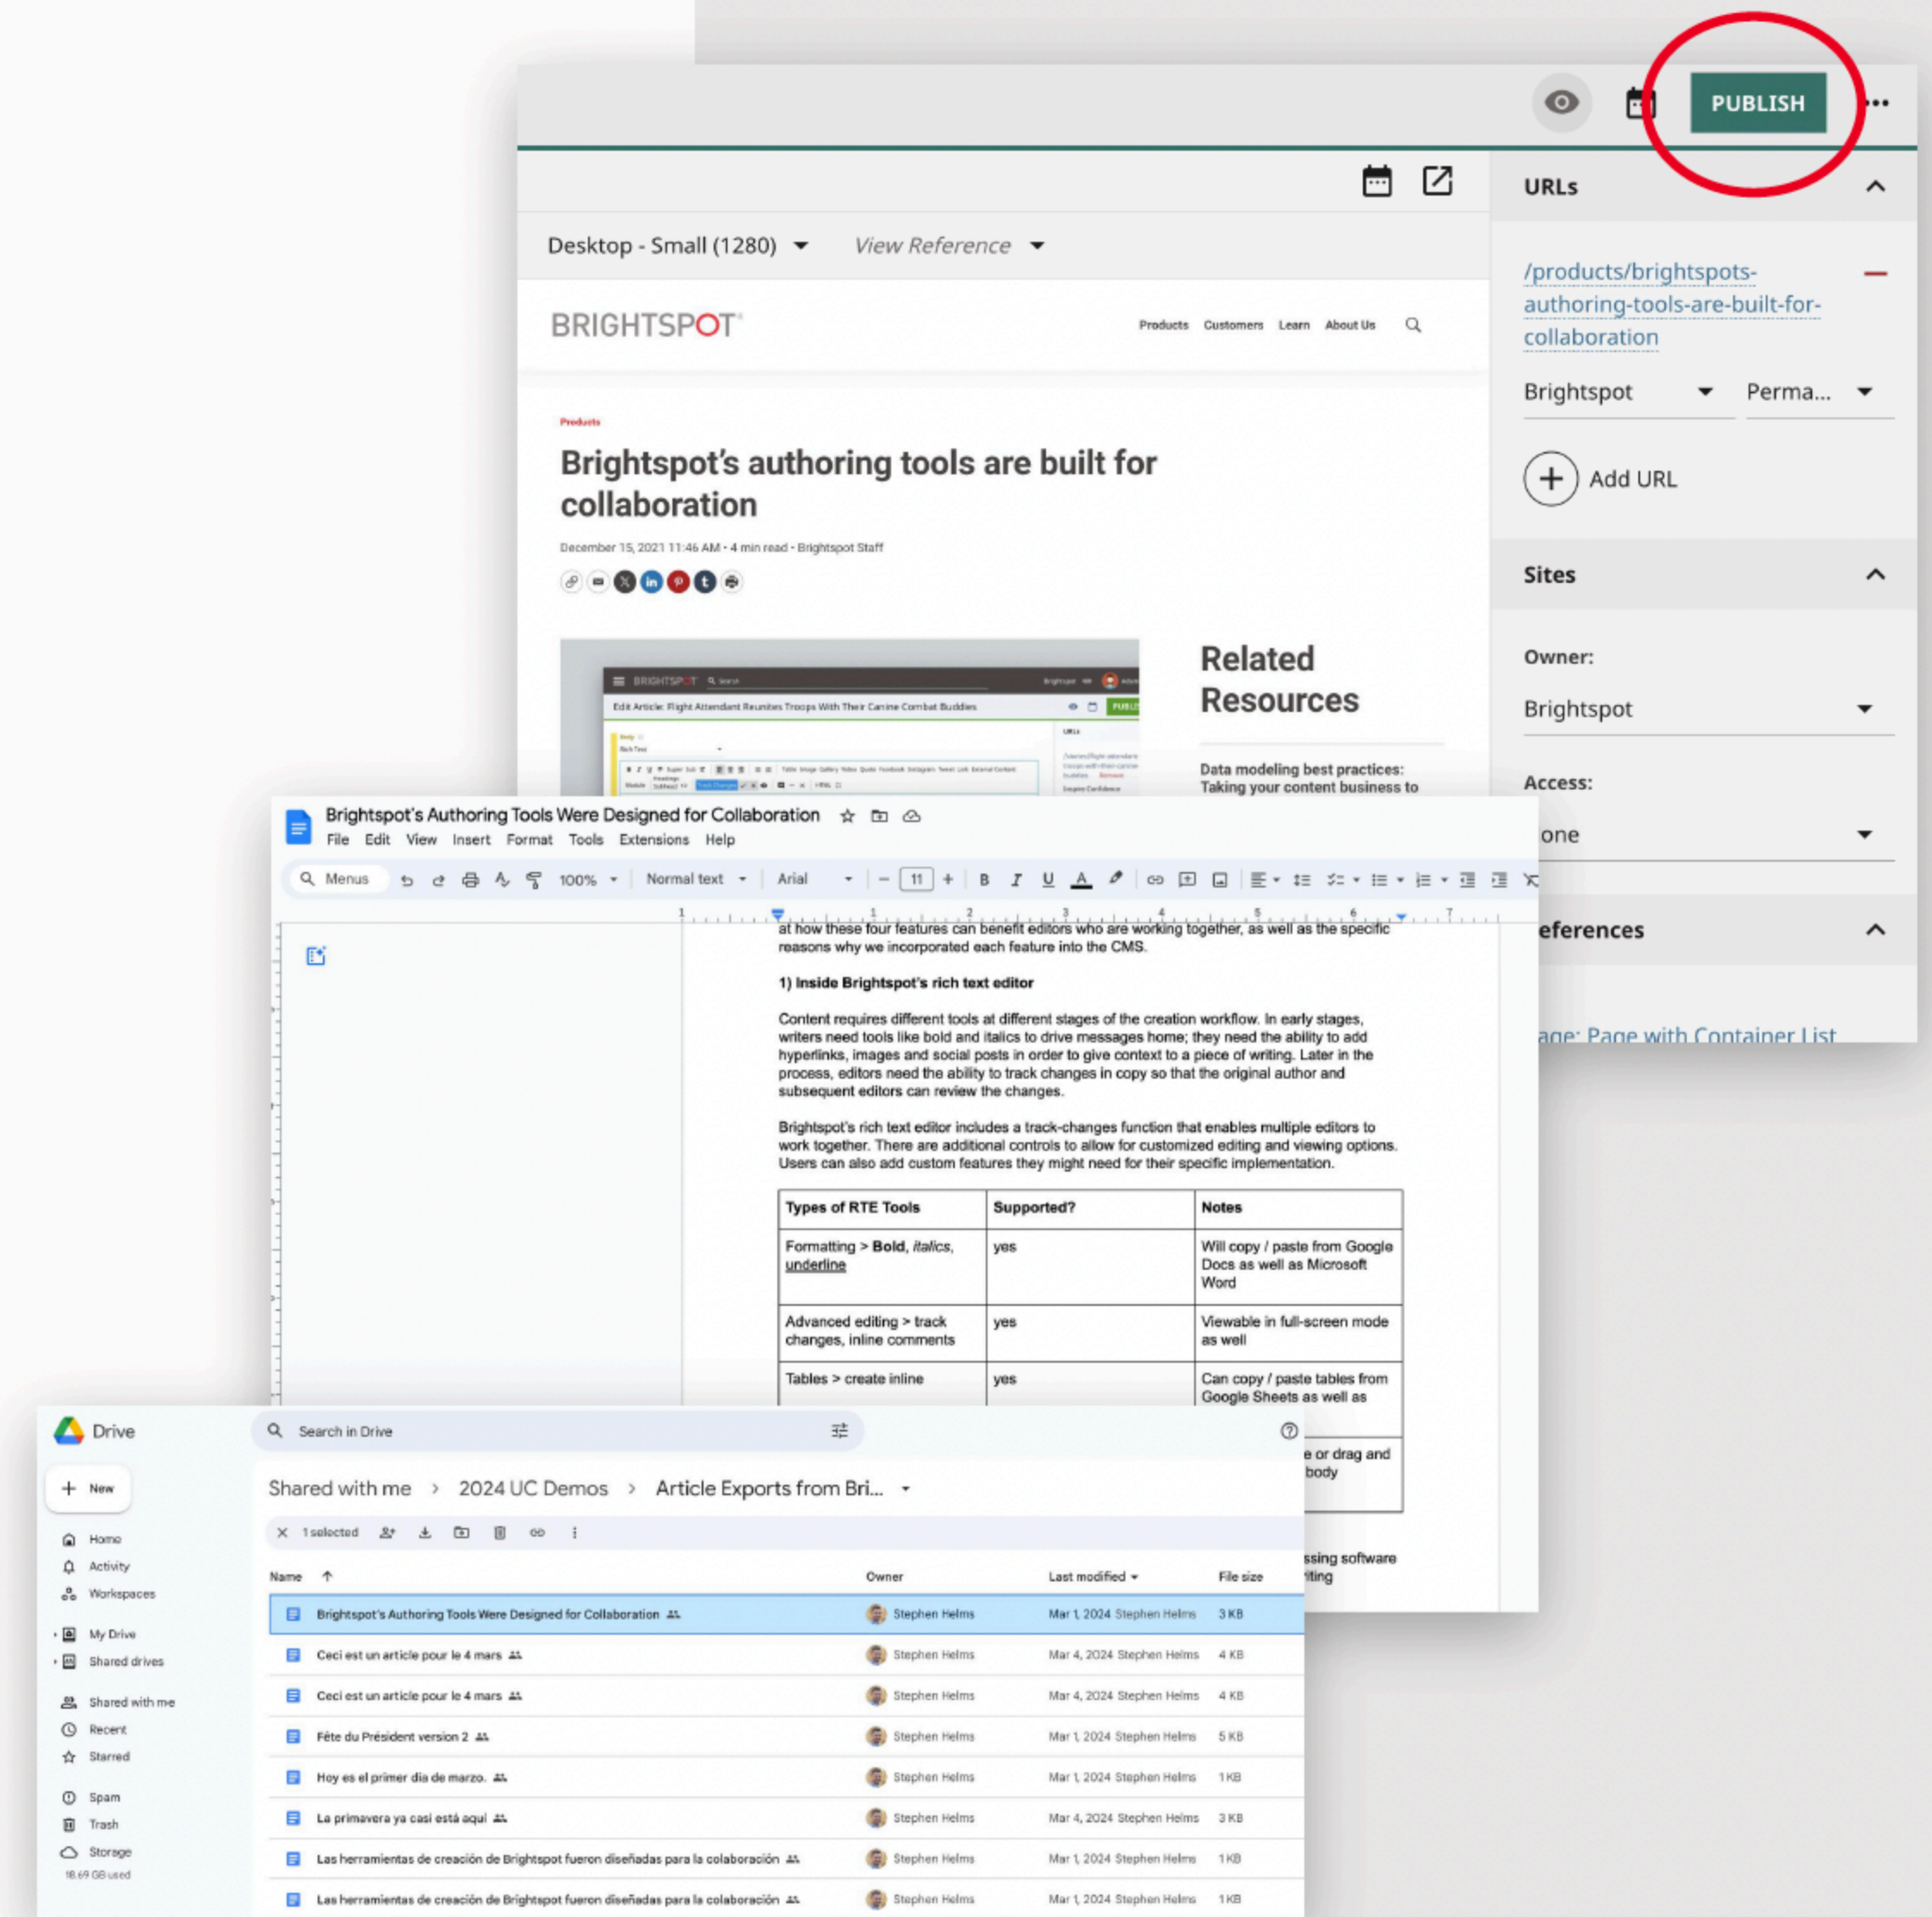

Hi Sa

BUILD Say "yes" and deliver quickly

Zapier examples, built in minutes

- **BSP Article Published** → Transformed to **Google Doc** → Saved in specified **Google Drive Folder** (+Trigger **Slack** Notification upon success)
- **Google Doc** dragged into specified **Google Drive Folder** → imported into **Brightspot** → Transformed to **BSP Article** (+Trigger **Slack** Notification upon success)
- **BSP Workflow transitions** → create new **MSFT Excel** Spreadsheet row entries within **MSFT OneDrive** and trigger **Email** to designated recipient(s) (+Trigger **MSFT Teams** Notification upon success)
- Ecosystem of over 7,000 apps
- [Demo \(5:50-8:00\)](#)

BRIGHTSPOT®

Flexibility & freedom in your technology

BRIGHTSPOT ROADMAP

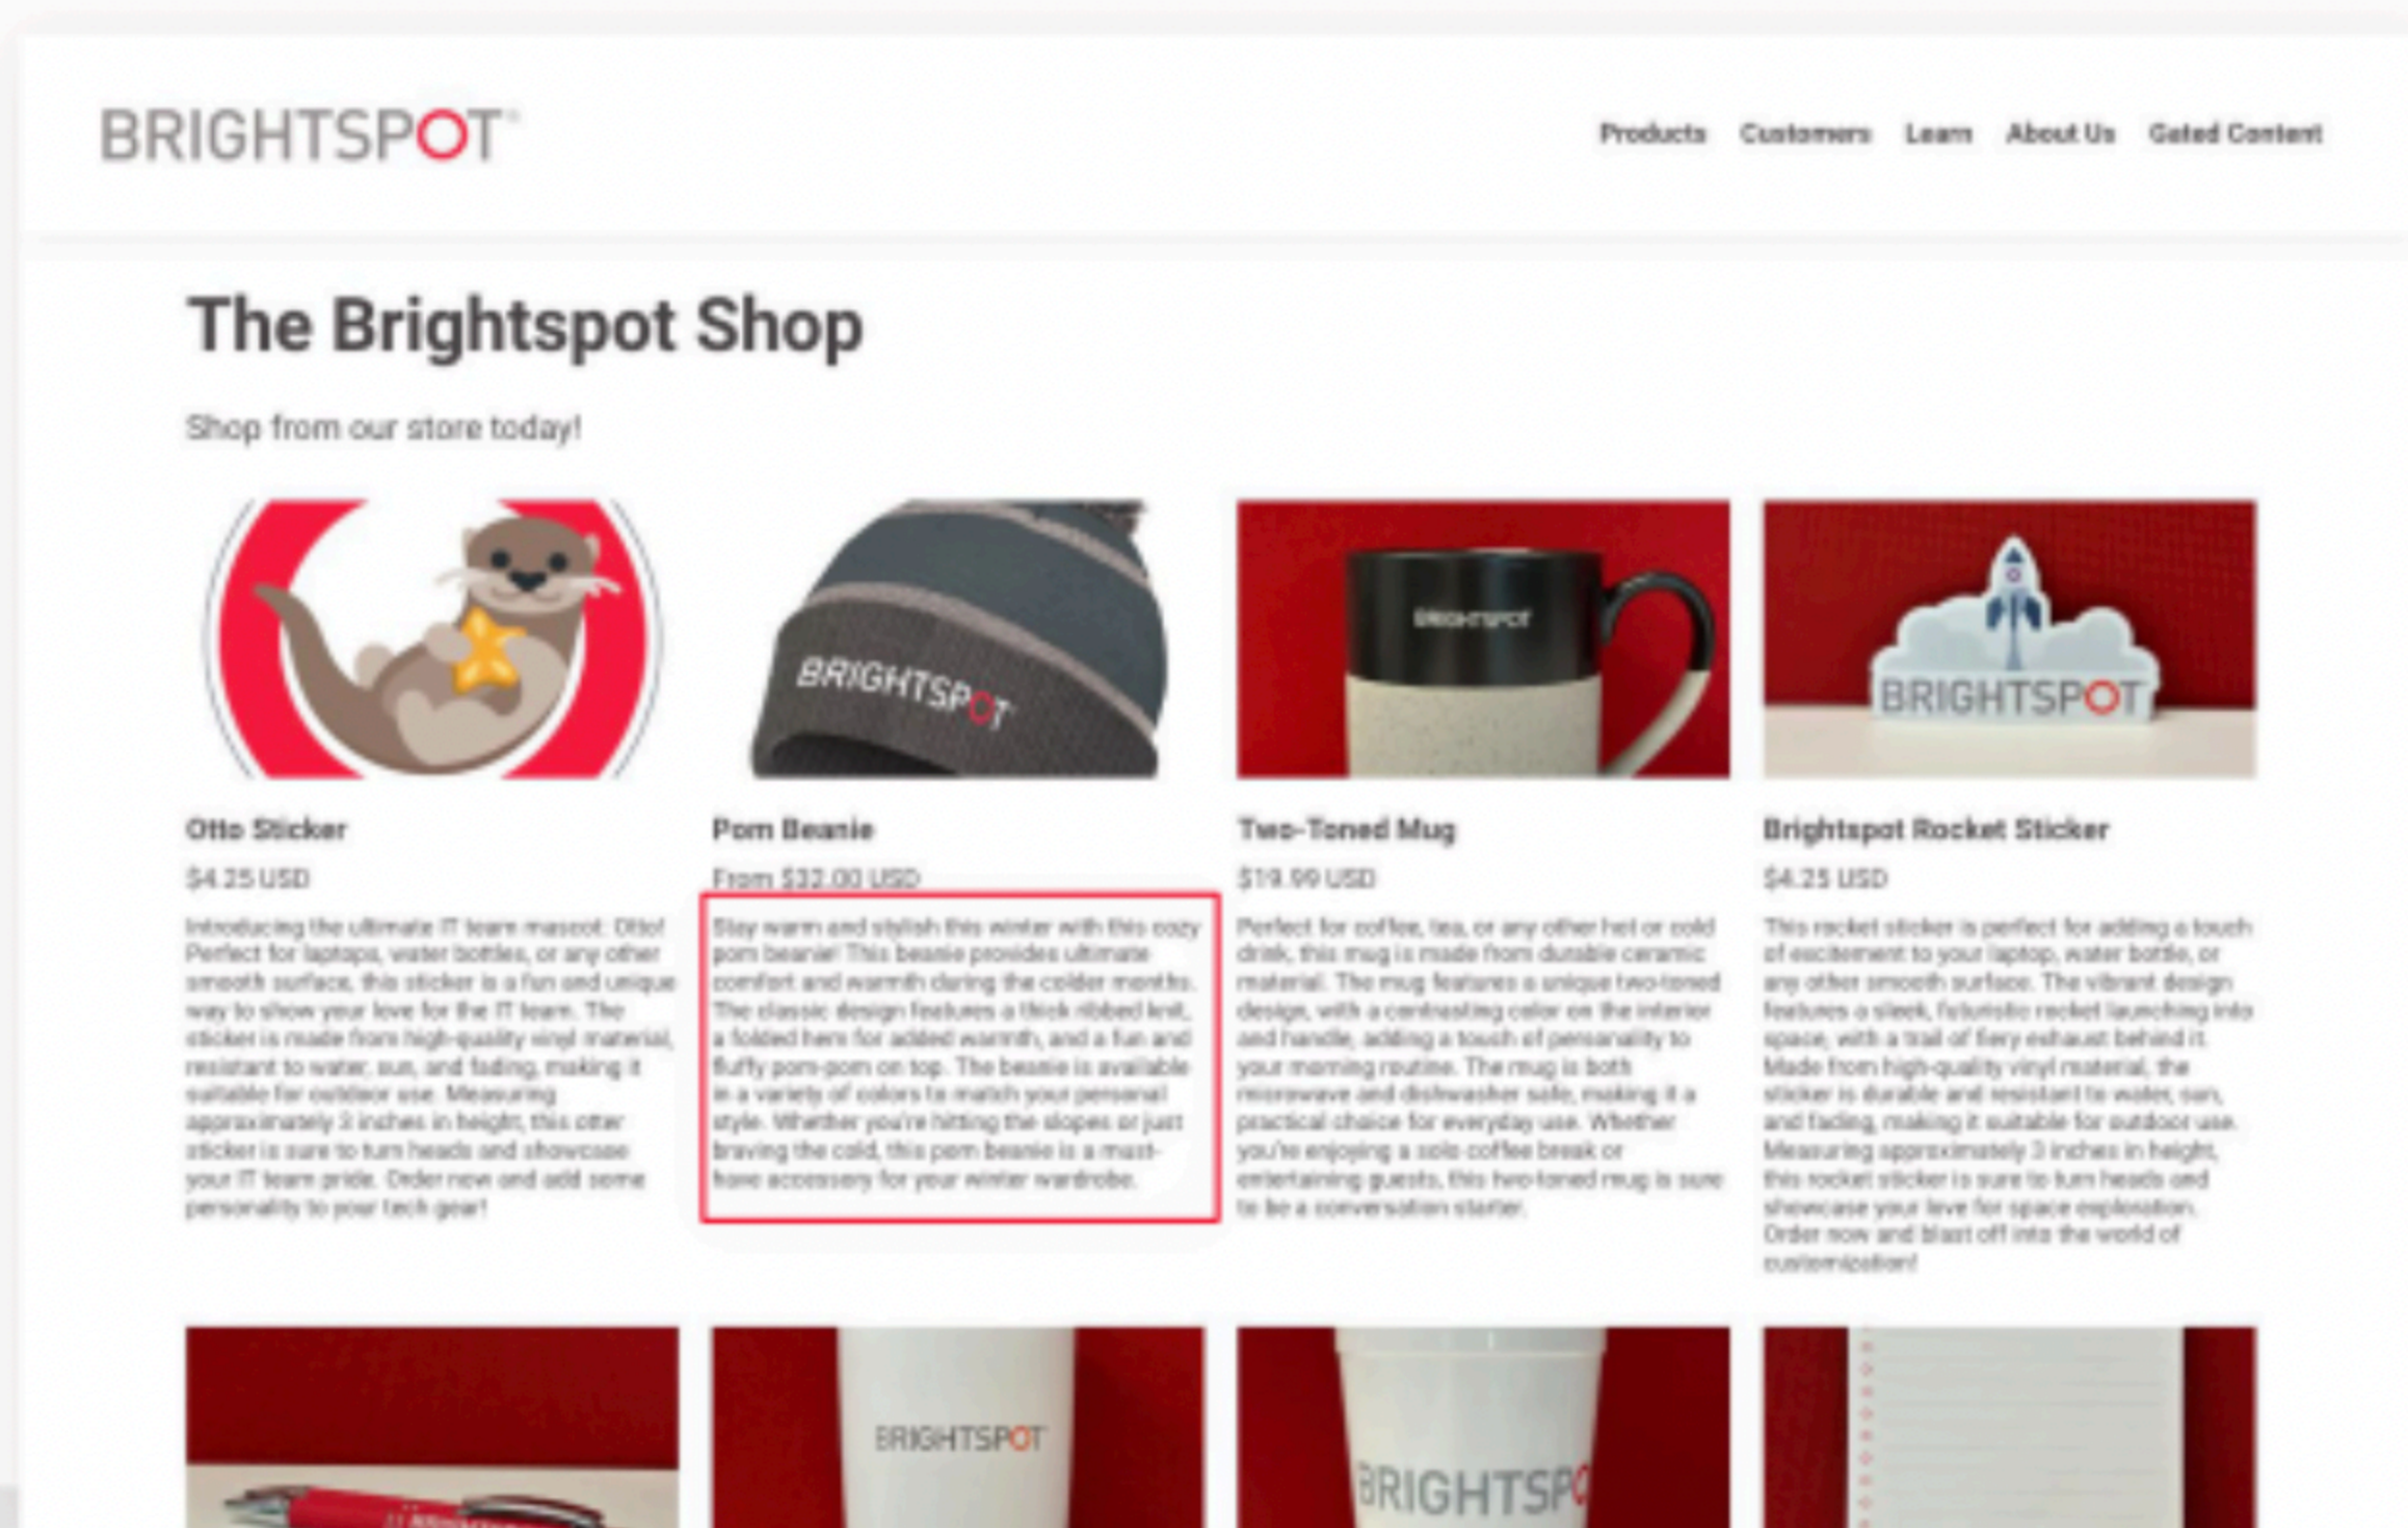

Fall 2024

Spring 2025

eCommerce - Shopify

- ▲ - **Content to Commerce** - a variety of new content types to specifically support eCommerce use case
- ▲ - **Actionable Data & Analytics** - create dynamic lists of top selling, most profitable, most viewed (etc) from your store.

Empower your work, in exactly your way

BRIGHTSPOT ROADMAP

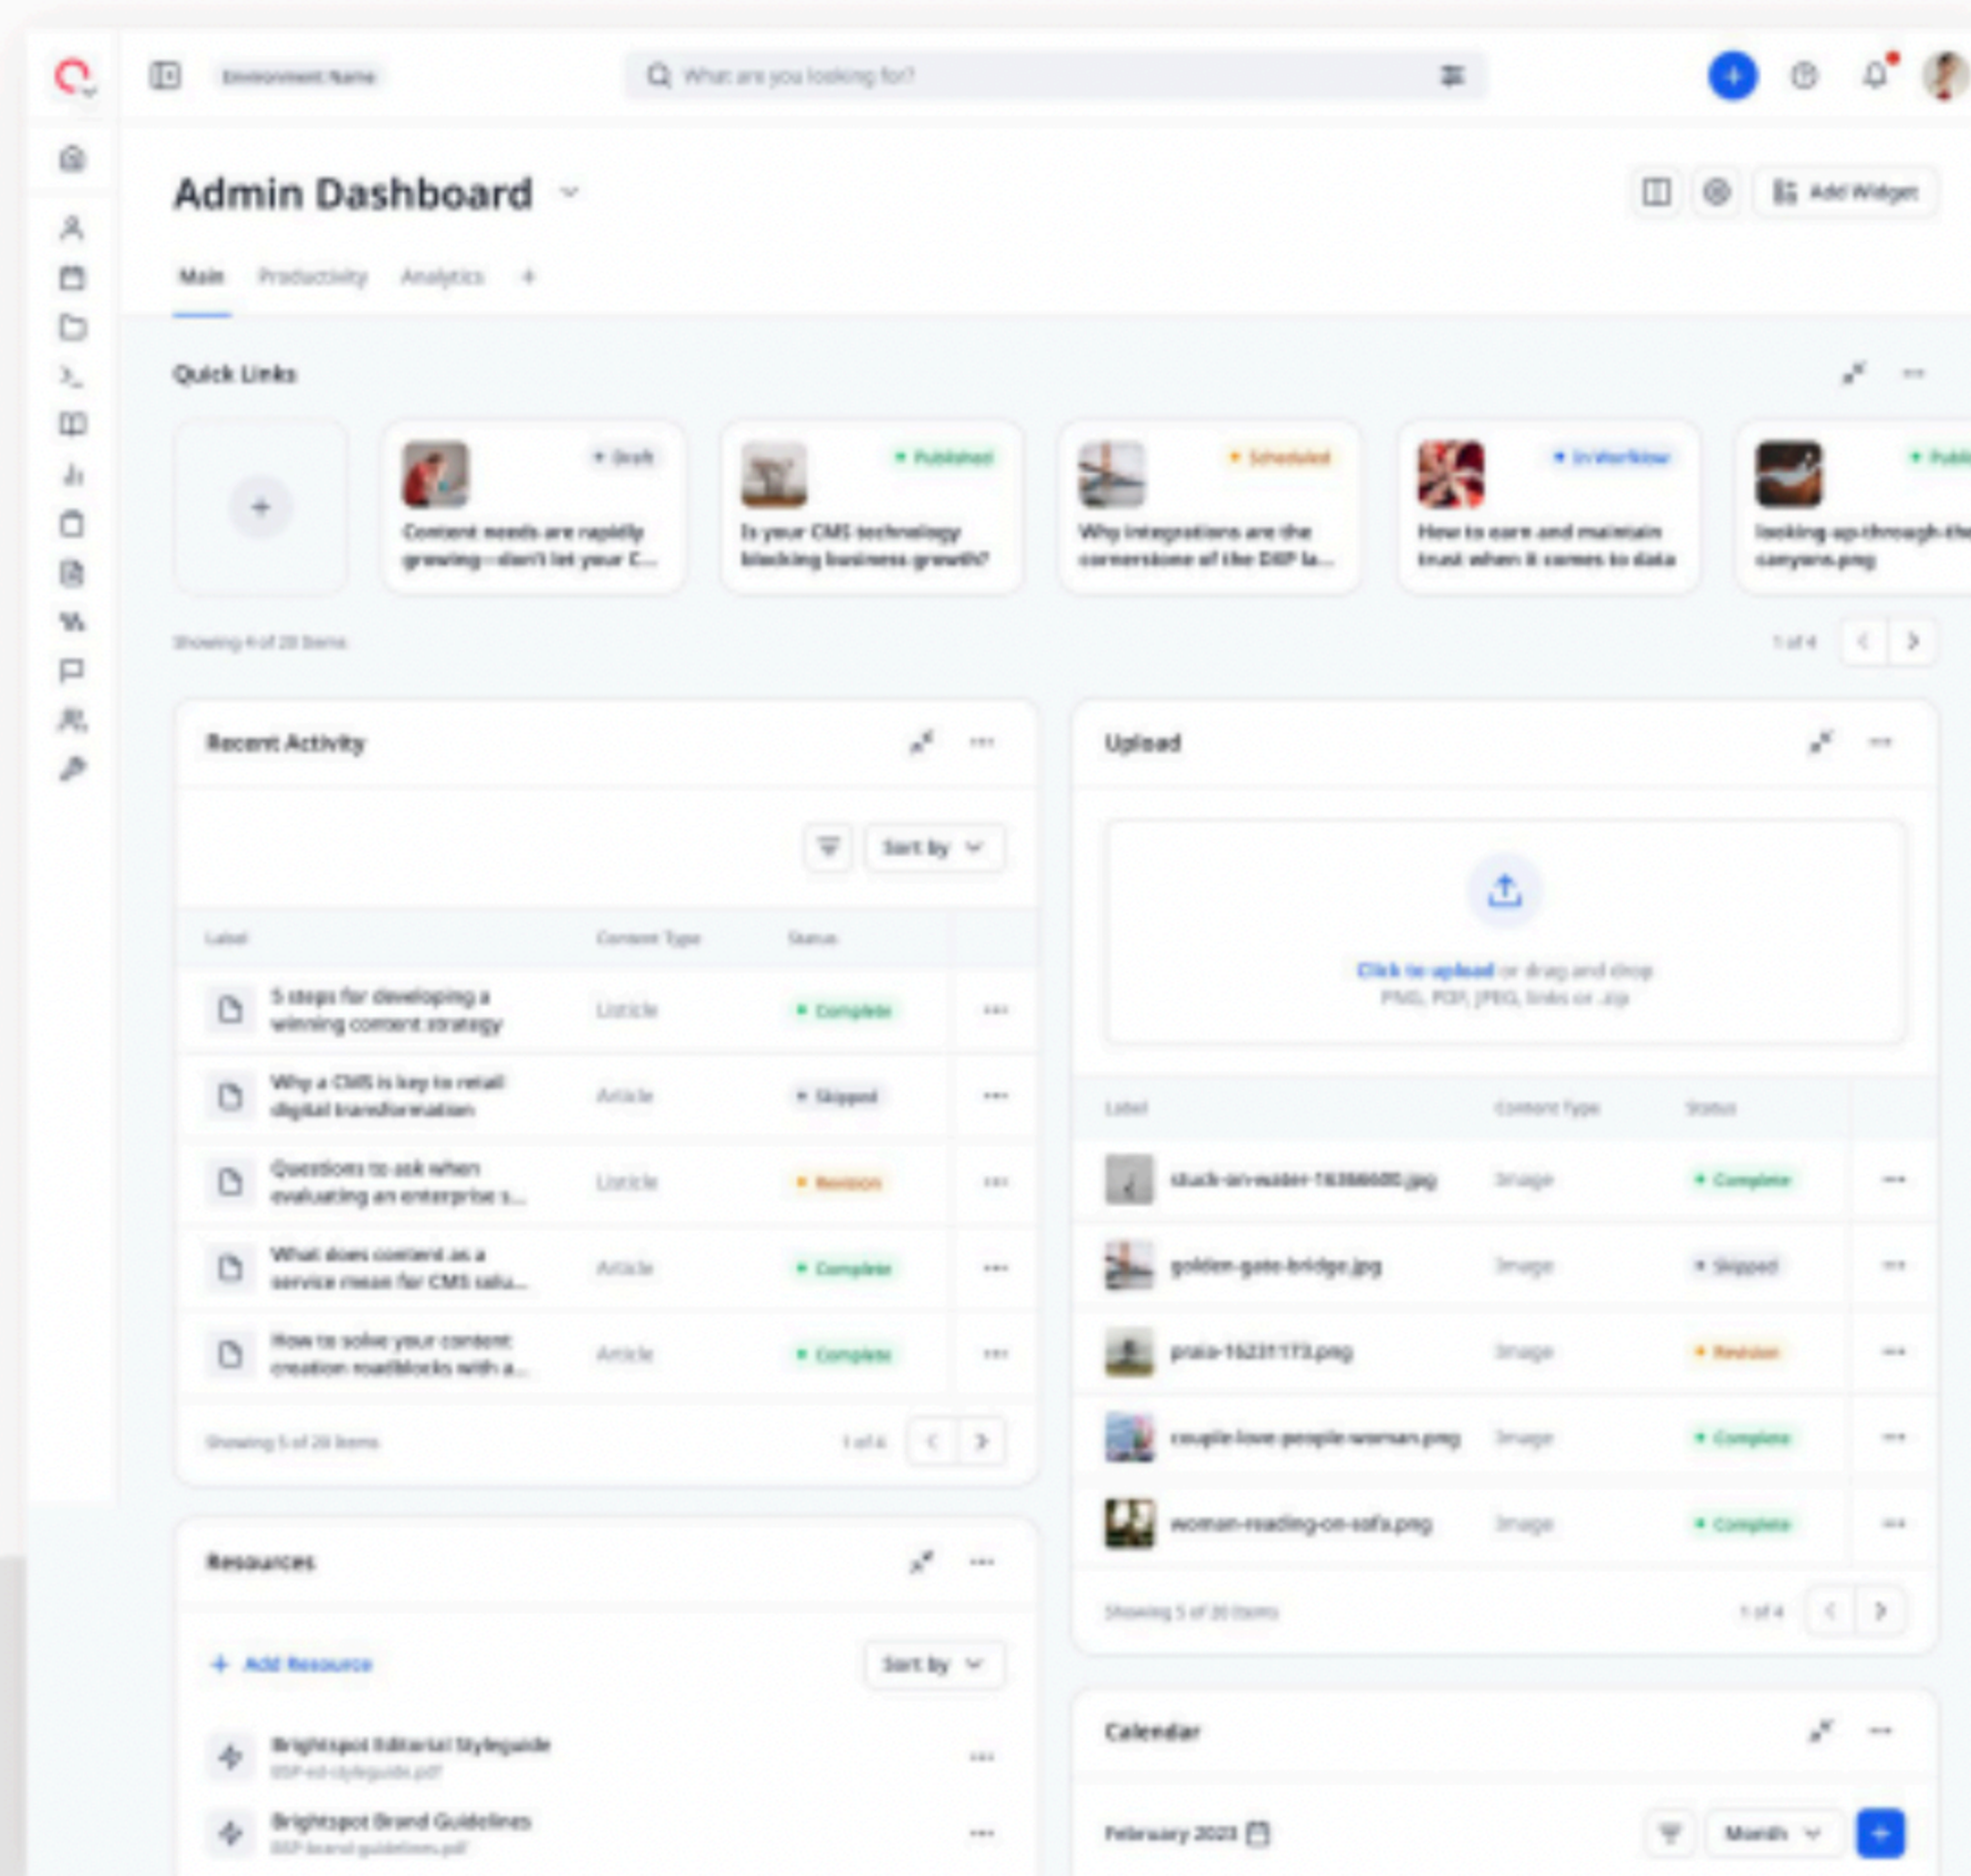

Fall 2024

Spring 2025

New User Interface

- ▲ - **Updated Look & Feel** - sleek and modern design across Brightspot and new ways to customize views
- ▲ - **Page Builder** - add, remove, and rearrange modules in-line
- ▲ - **Flexible Edit Page Layout** - optimized screen real estate with adjustable sizing and collapsible widgets

Empower your work, in exactly your way

BRIGHTSPOT ROADMAP

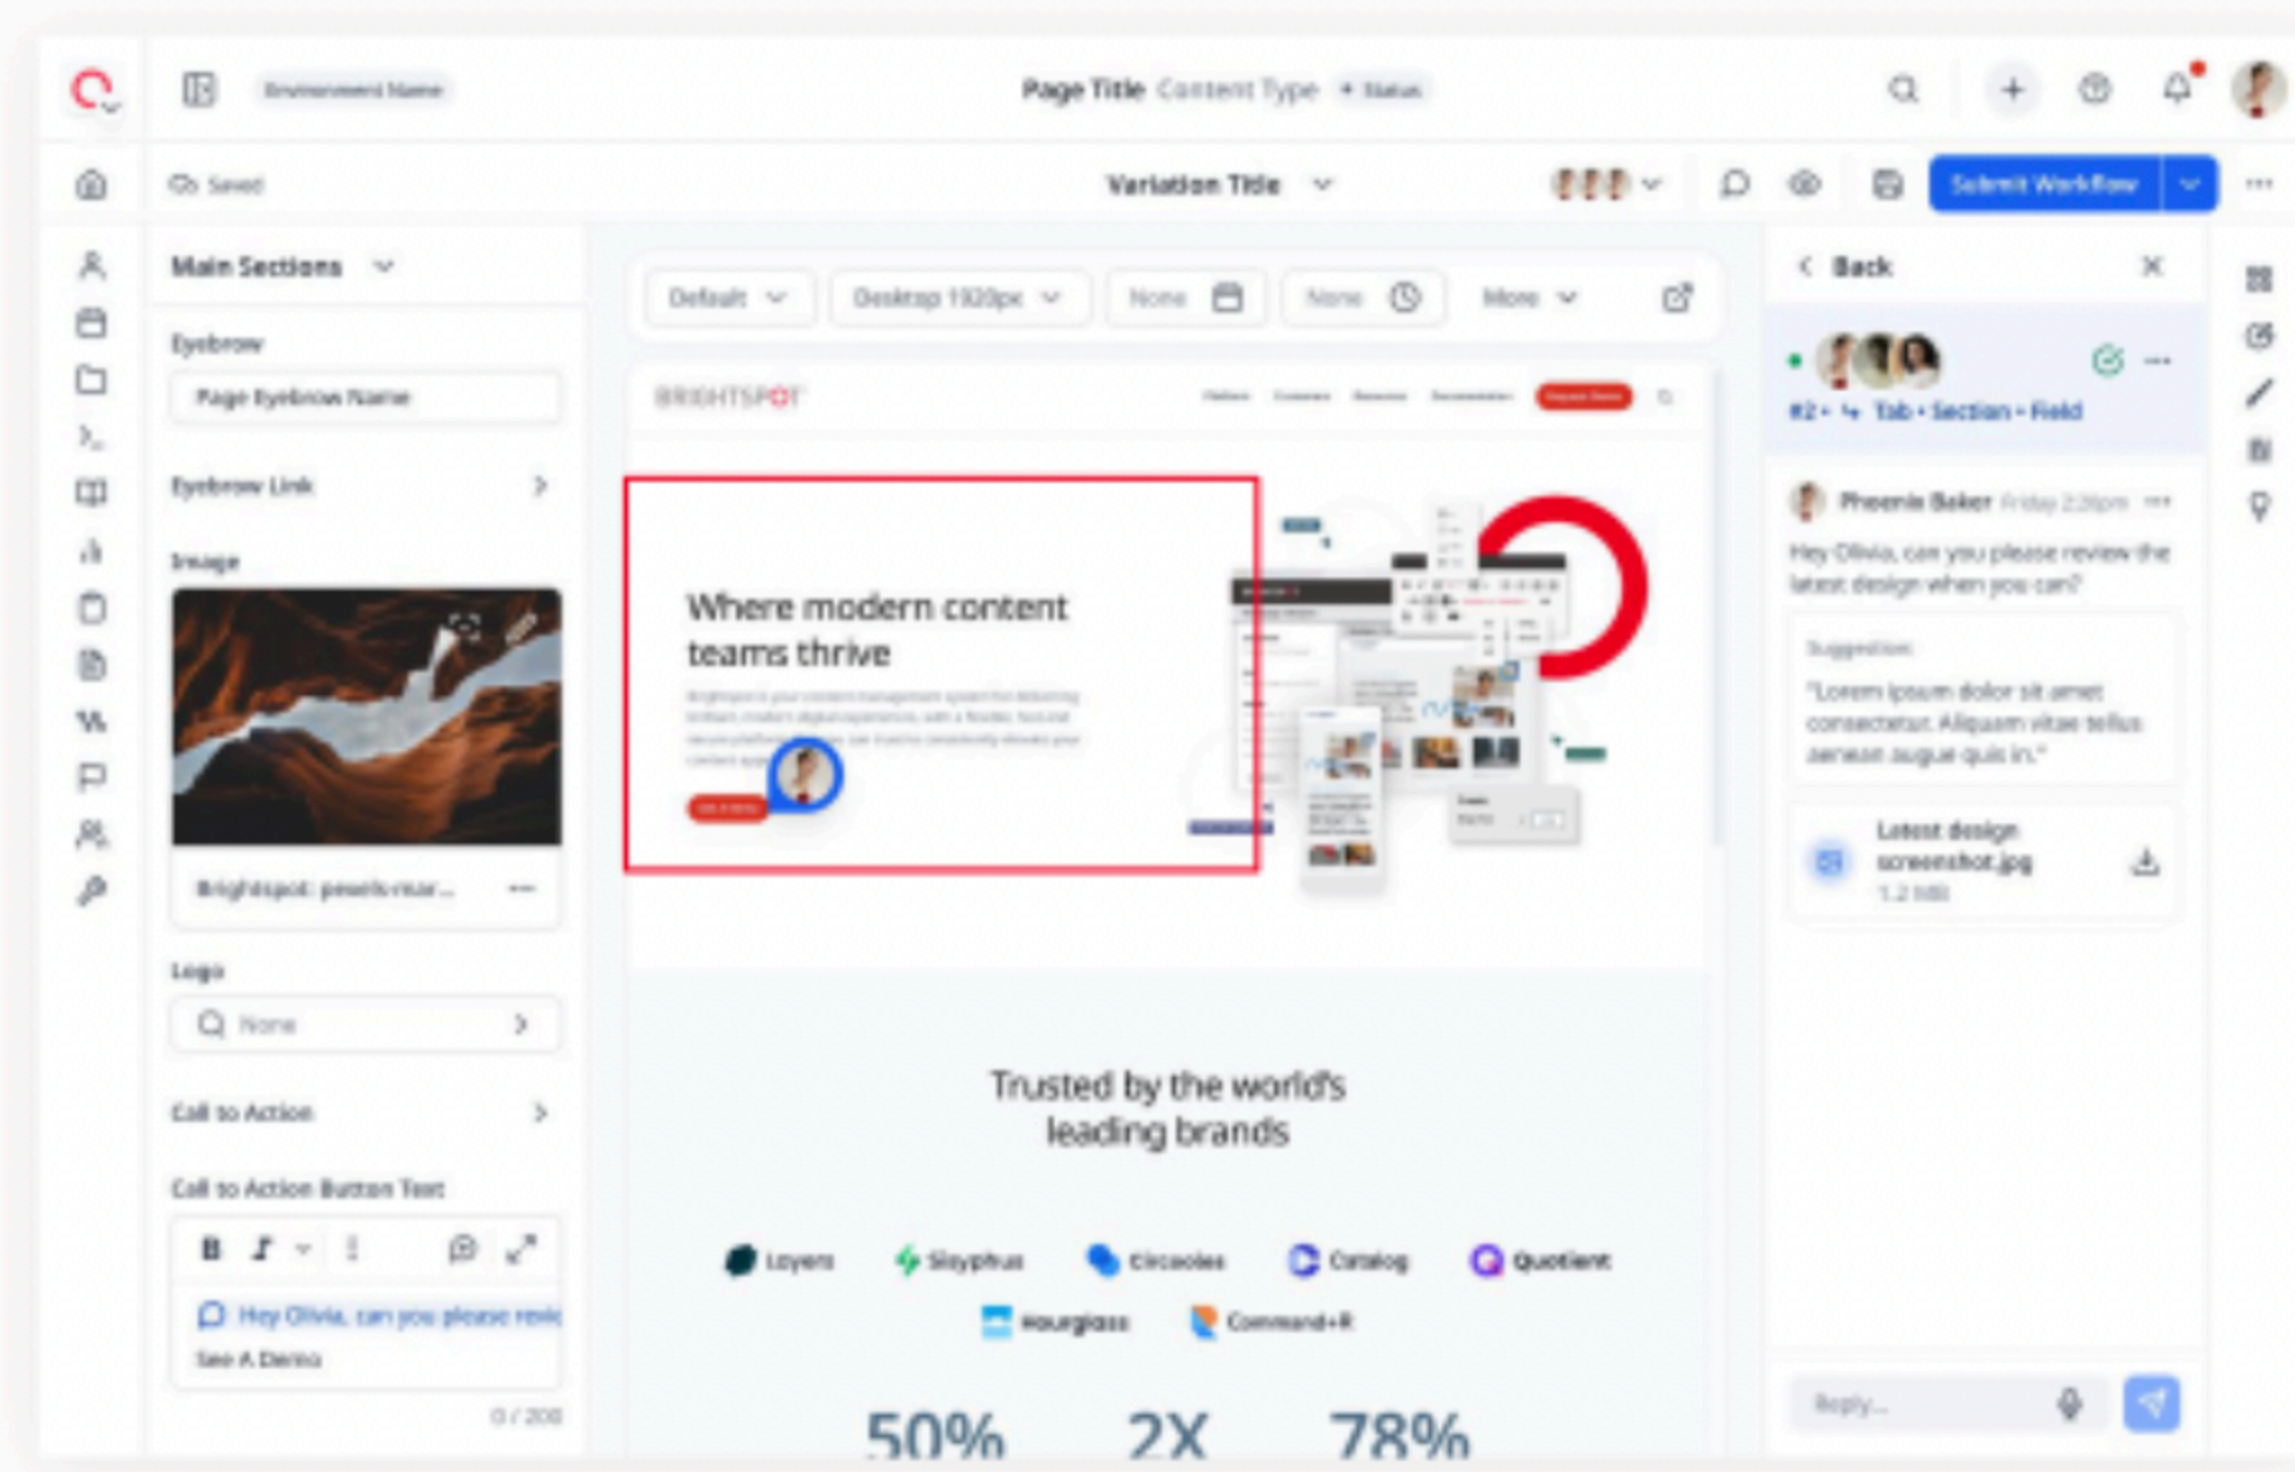

Fall 2024

Spring 2025

Collaboration & Communication

- ▲ - **Contextual Commenting** - to contextualize your feedback in-line and in preview
- ▲ - **Comment Consolidation** - see all comments in one place
- ▲ - **Private Drafts** - invite specific users to view/edit drafts

Empower your work, in exactly your way

BRIGHTSPOT ROADMAP

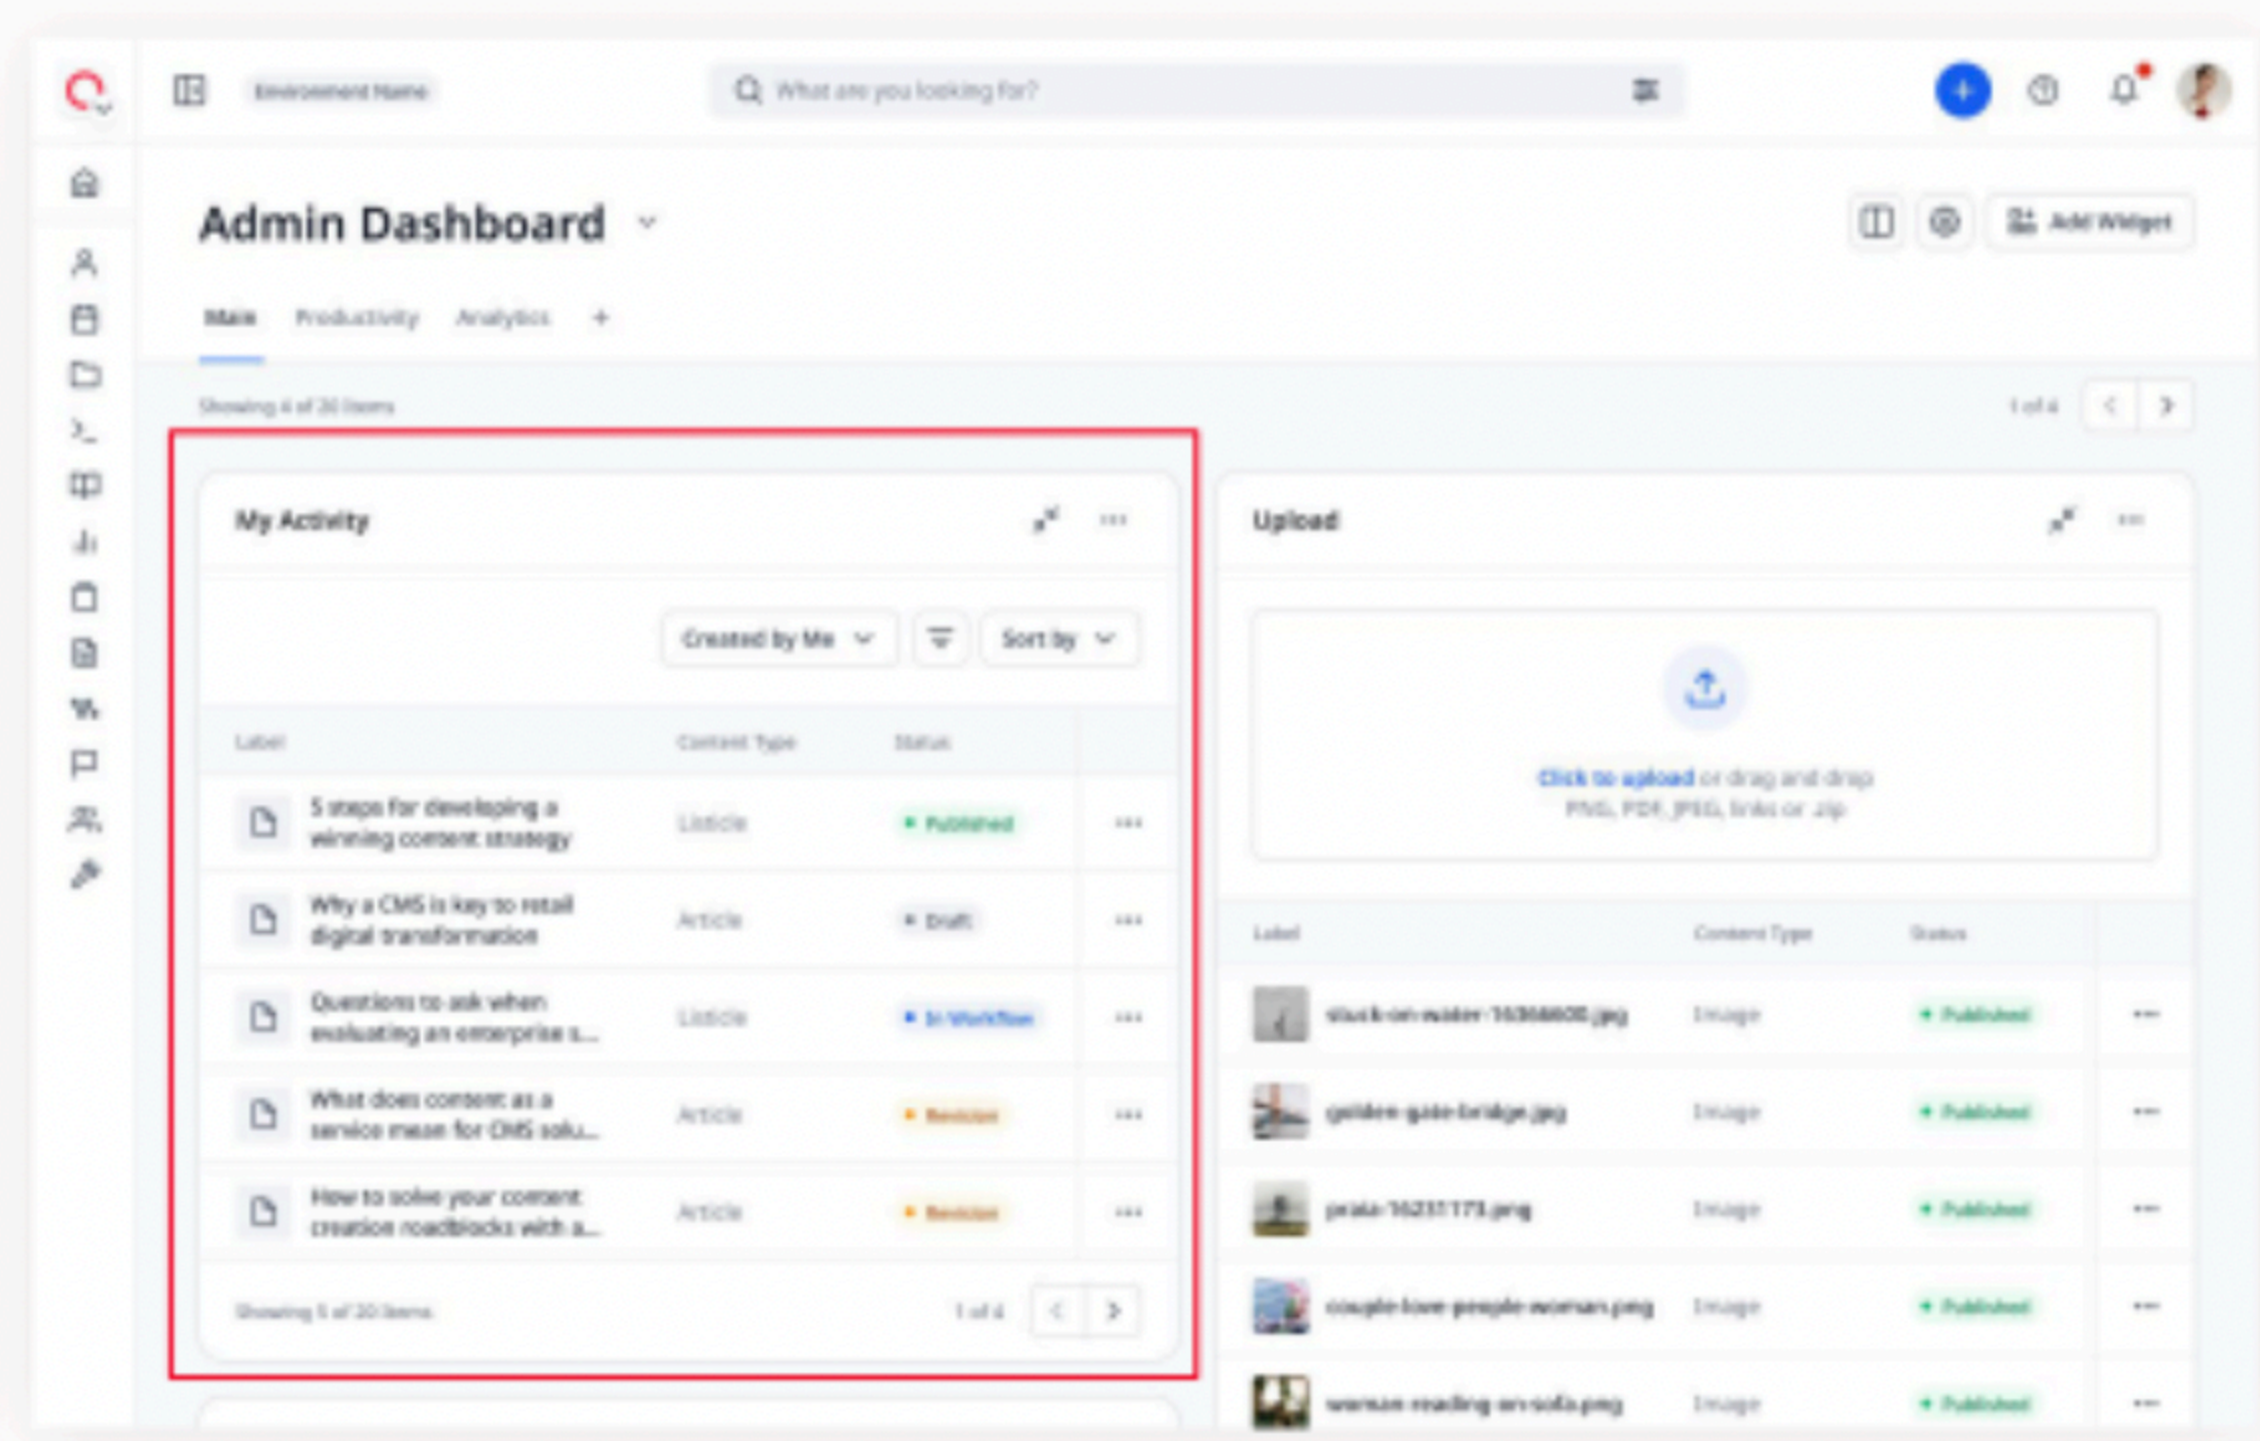

Fall 2024

Spring 2025

Activity & Notifications

- ▲ - **My Activity Widget** - Filterable view of your created, published, updated, viewed, and watched content
- ▲ - **Actionable Notifications** - respond to notifications in email, Slack, or Microsoft Teams
- ▲ - **Notification Digests** - receive daily or weekly notification summaries

Empower your work, in exactly your way

BRIGHTSPOT ROADMAP

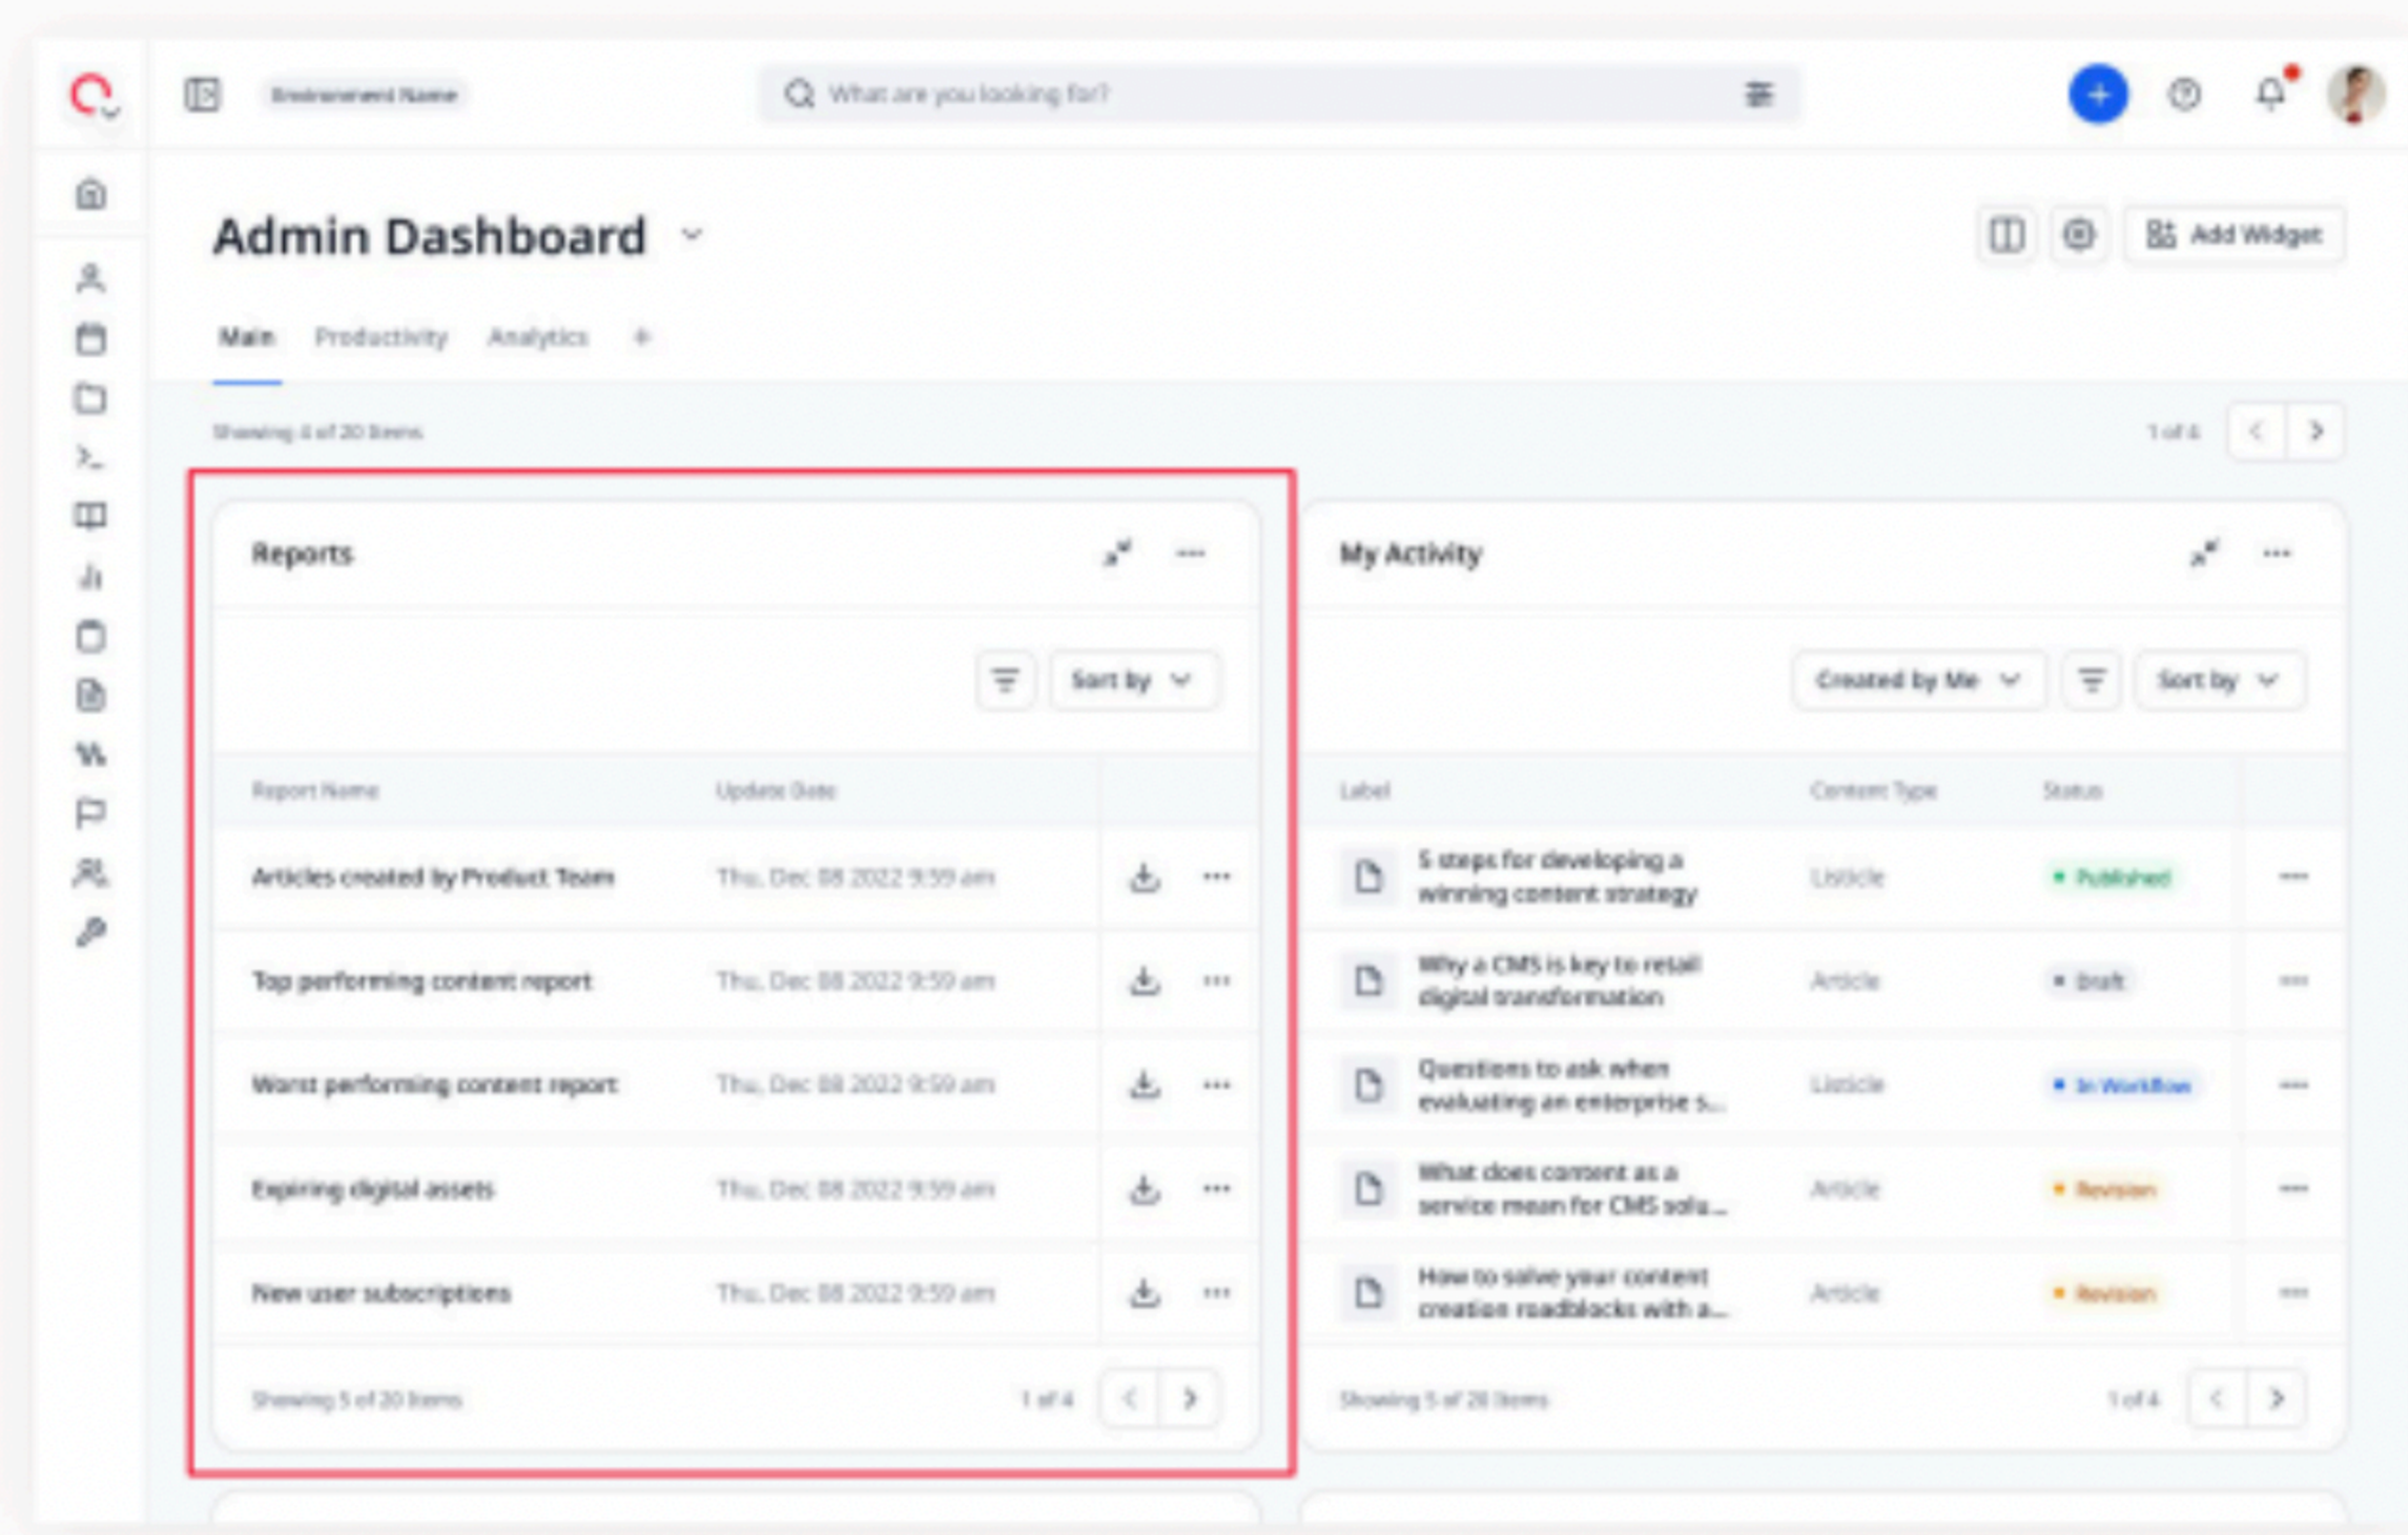

Fall 2024

Spring 2025

Reporting & Site Health

- ▲ - **Content Reporting** - create, schedule, run, and export complete content datasets
- ▲ - **Site Health Reporting** - proactive, standard and customizable, notifications about conditions that may be impacting site health.

Your life made more productive with AI

BRIGHTSPOT ROADMAP

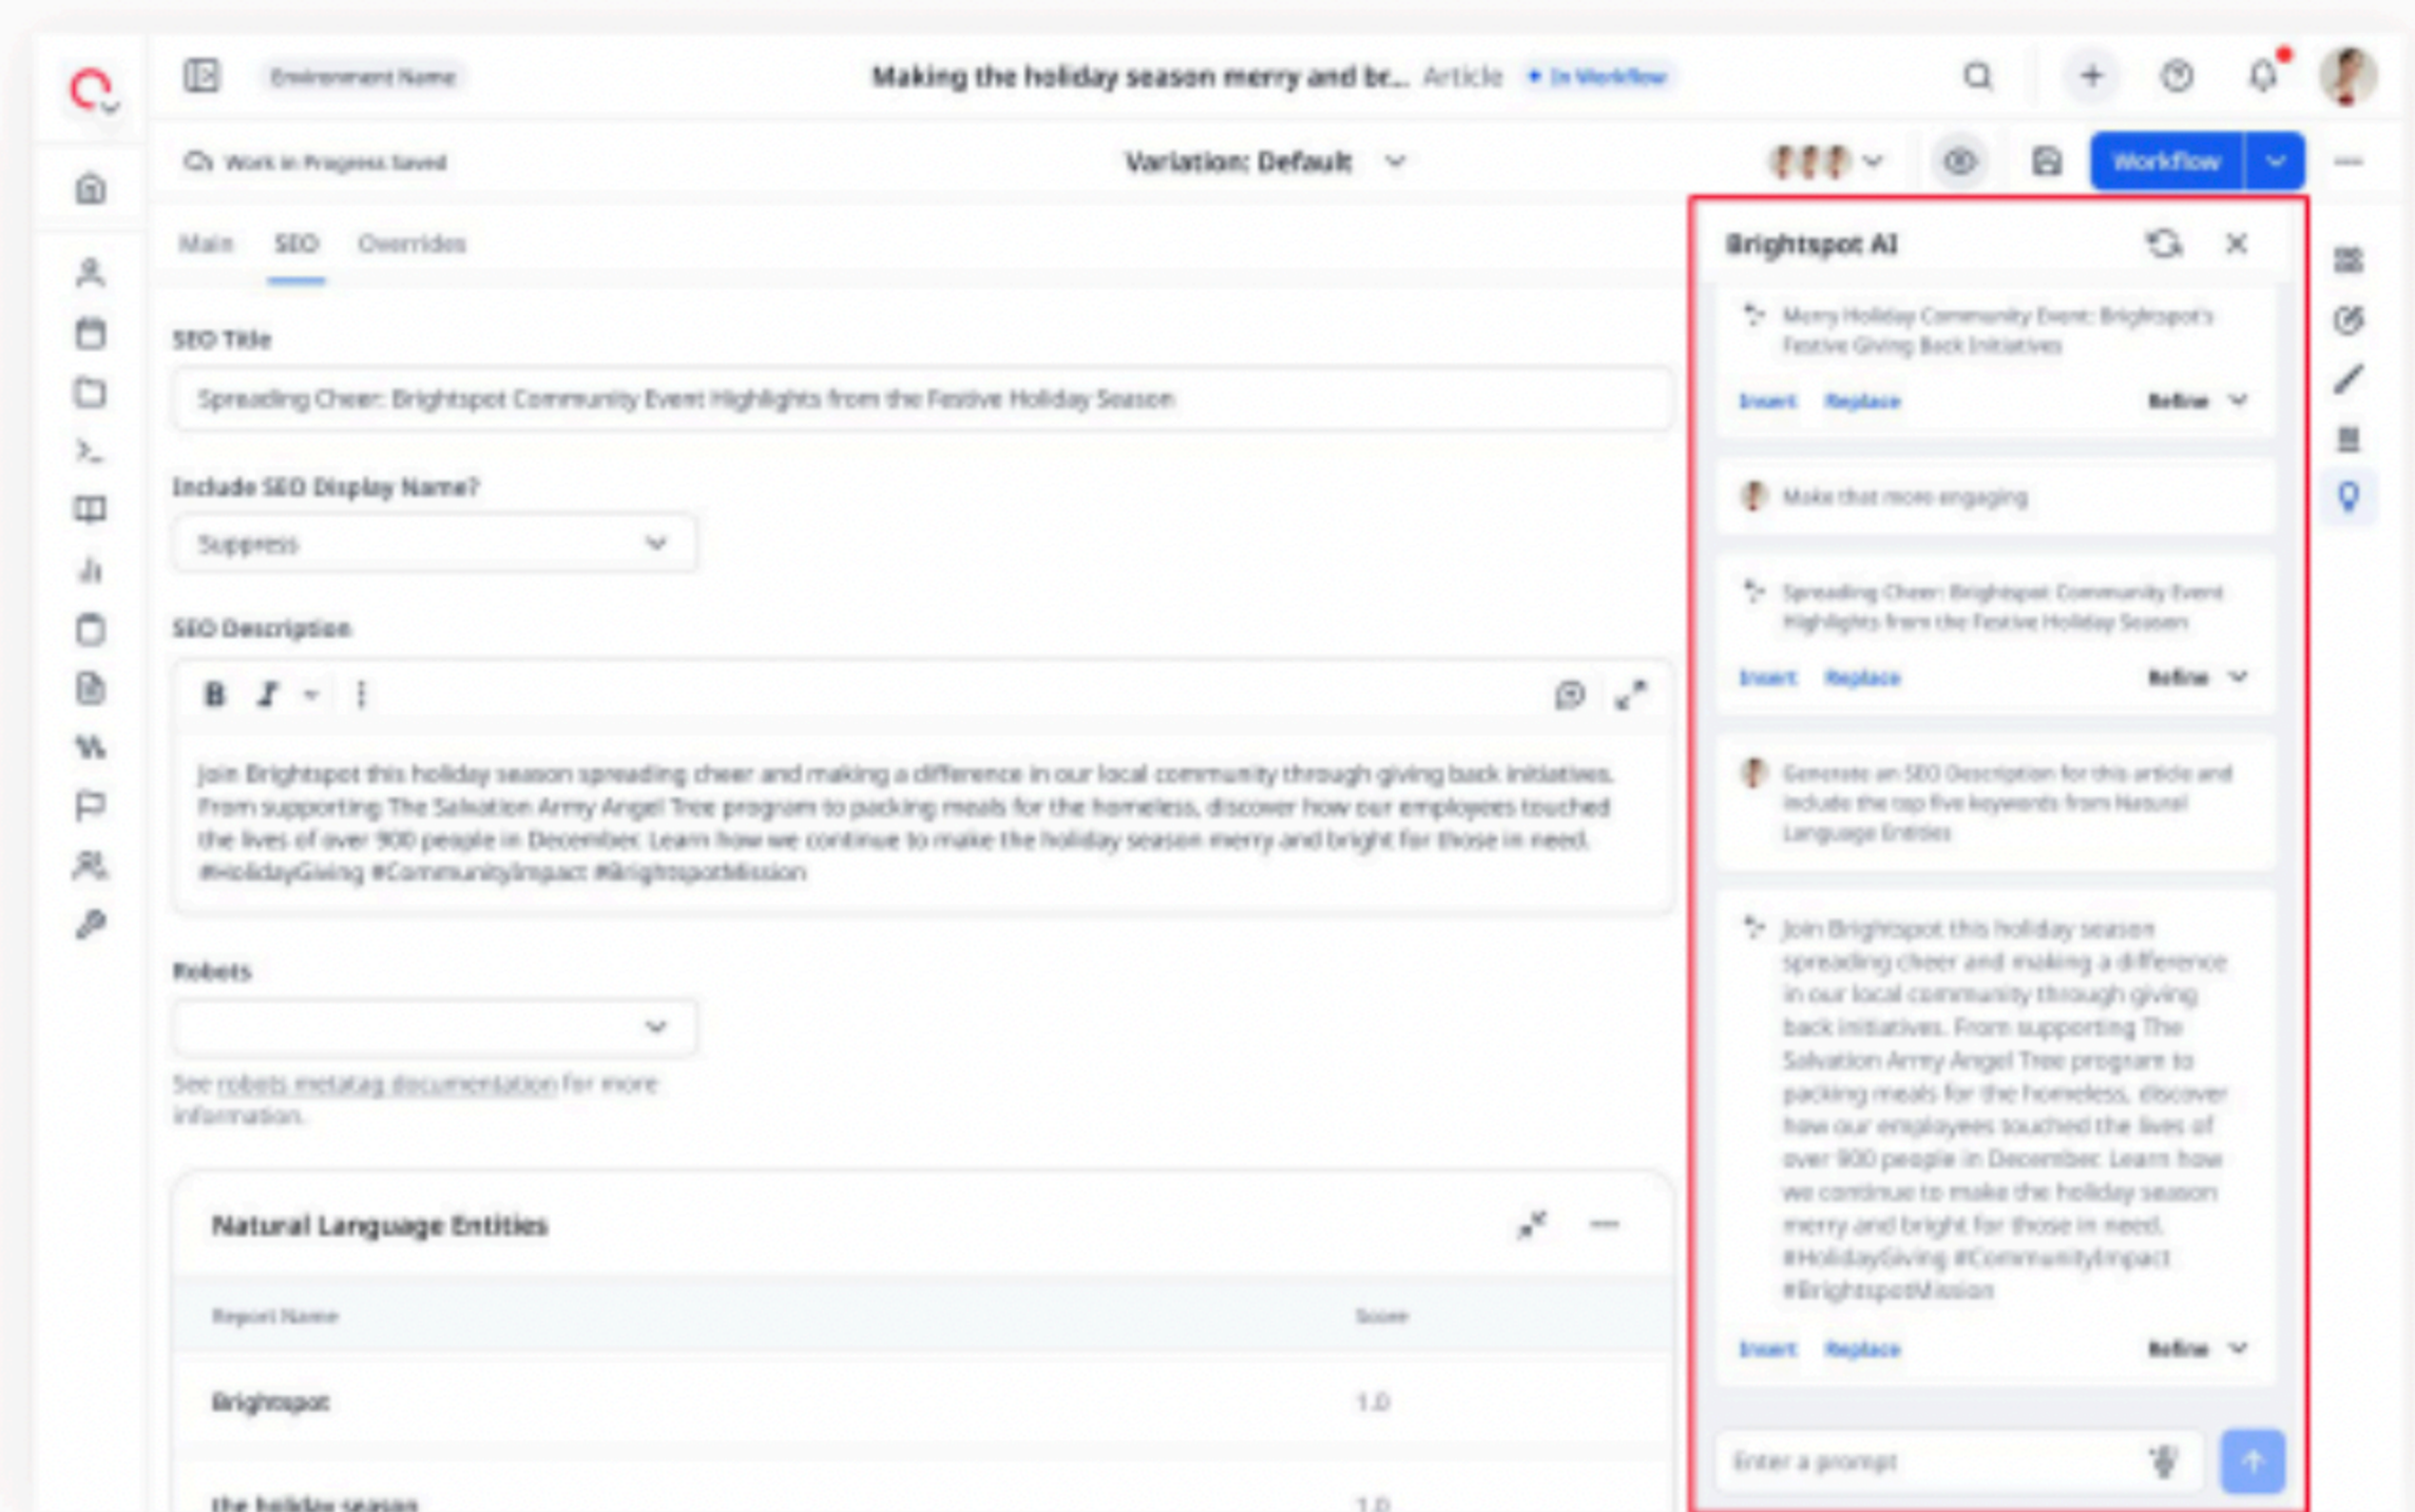

Fall 2024

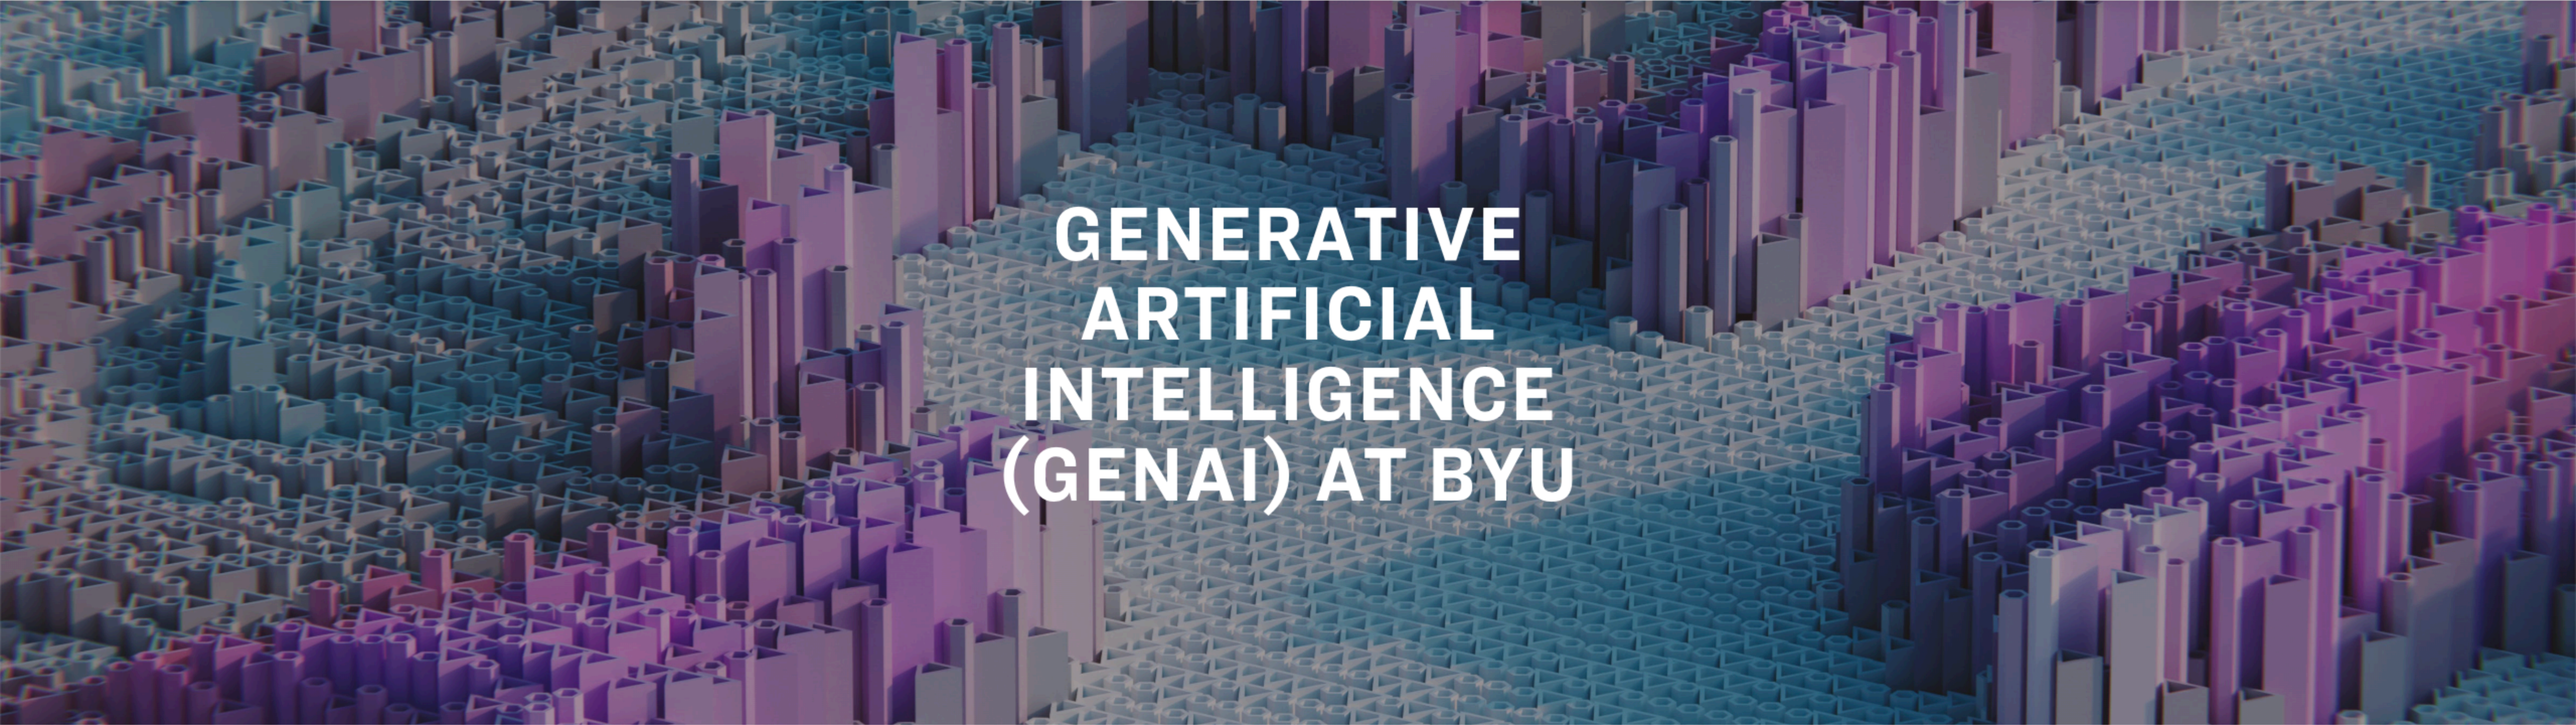

Spring 2025

Asset Interaction

- ▲ - **Text generation** - to enhance existing assets or create content on specific topics
- ▲ - **Interact with images** - by generating alt text
- ▲ - **Interact with Text/PDF** - by extracting insights and summaries

GENERATIVE ARTIFICIAL INTELLIGENCE (GENAI) AT BYU

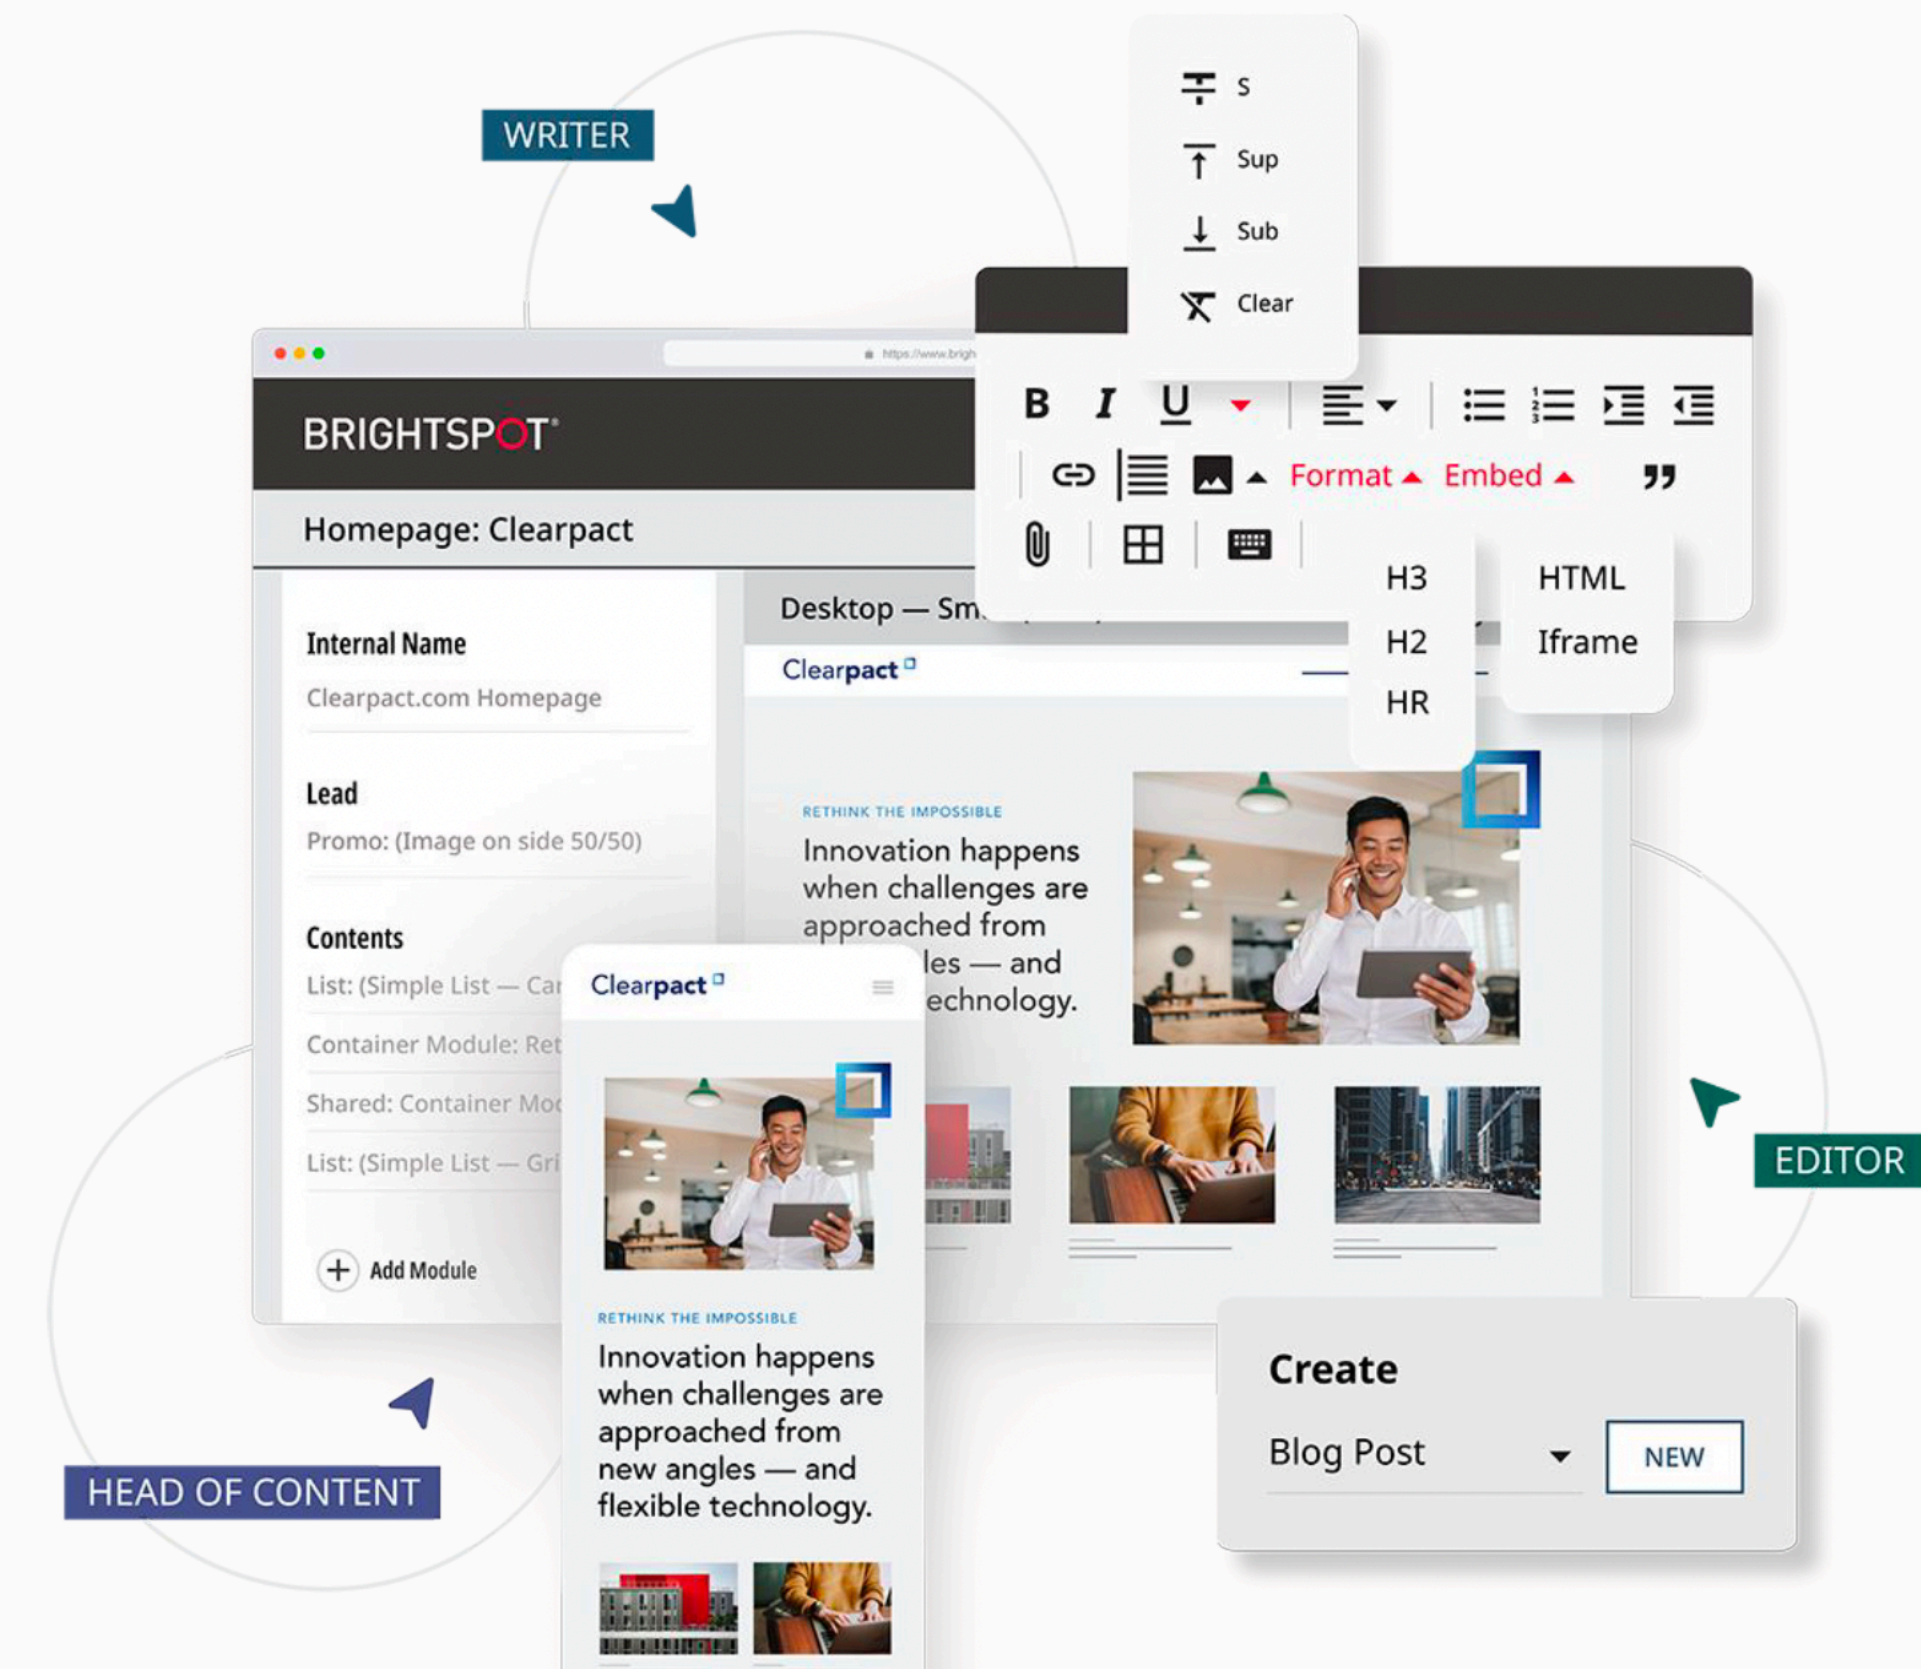

Artificial Intelligence, specifically Generative AI (GenAI), is rapidly evolving and becoming increasingly important in our everyday lives. Find out how you can safely and responsibly use Generative AI at BYU.

New capabilities in 2024

Upcoming Brightspot features that are being built to make content delivery easier and faster for your teams.

BRIGHTSPOT®

- Editorial Calendar
- Actionable Notifications
- My Activity Widget
- User Access Widget
- Contextual Commenting
- Calls with Viewers
- Create with AI
